#### **INDEPENDENT AUDITORS' REPORT**

To: the Board of Directors and Shareholders of Pegavision Corporation

# Opinion

We have audited the accompanying parent-company-only balance sheets of Pegavision Corporation (the "Company") as of December 31, 2019 and 2018, and the related parent-company-only statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent-company-only financial statements, including the summary of significant accounting policies (together referred as "the parent-company-only financial statements").

In our opinion, the parent-company-only financial statements referred to above present fairly, in all material respects, the parent-company-only financial position of the Company as of December 31, 2019 and 2018, and their parent-company-only financial performance and cash flows for the years then ended, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

#### **Basis for Opinion**

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of the most significance in our audit of parent-company-only financial statements for the year ended December 31, 2019. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

#### **Revenue Recognition**

We determine that revenue recognition is one of the key audit matters. The Company's revenue amounting to NT\$3,096,188 thousand for the year ended December 31, 2019 is a significant account to the Company's financial statements. The Company has conducted these sale activities in multi-marketplace, including Taiwan, China, Japan, etc. Furthermore, the timing of fulfilling performance obligation needs to be determined based on varieties of sale terms and conditions enacted in the main sale contracts or sale orders. We therefore conclude that there are significant risks with respect to the topic of revenue recognition.

Our audit procedures therefore include, but not limit to, evaluating the properness of accounting policy for revenue recognition, assessing and testing the effectiveness of relevant internal controls related to revenue recognition, sampling-test of details, including obtaining major sale orders or agreements to inspect the terms and conditions, checking the consistency of the fulfillment timing, performing analytical review procedures on sale revenues, and executing sale cut-off tests, etc. Besides, we evaluate whether the parameter which the management used as for the individual price estimates is appropriate and whether the trade price is allocated properly. We also recalculated the amount of the customer loyalty programmes as of December 31, 2019. We have also evaluated the appropriateness of the related disclosure in Note 6 to the financial statements.

#### Market valuation on Inventory

We determined the market valuation on inventory is also one of key audit matters. The Company's net inventory amounted to NT\$502,797 thousand, representing 10% of total assets, as of December 31, 2019, which is significant to the Company's financial statements. The market of the Company's main products, is characterized by fierce competition and the trend of consumers' preference, management, in timely considering the status of new products development and the demand from clients, has to evaluate the loss due to market value decline as well as write-down on slow-moving inventories to their net realizable value.

Our audit procedures therefore include, but not limit to, evaluating the Company's policy with respect to assessment the loss from slow-moving inventory and phased-out items, (including identification method, testing the accuracy of inventory aging schedule, analysis on inventory movement), evaluating the physical inventory stock take plan report provided by the management and choose the significant location to perform the observation, and inspecting the current status of inventory usage, etc. We also evaluated the appropriateness of related disclosure in the Note 5 and 6 to the financial statements.

# Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company.

#### Auditor's Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent-company-only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent-company-only financial statements.

As part of an audit in accordance with auditing standards generally accepted in the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- 2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.
- 3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- 4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- 5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the accompanying notes, and whether the parent-company-only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- 6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2019 parent-company-only financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we

determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

| A31230 | Prepayments                                                                            | (2,110)   | 6,760     | E00200 | Cash and cash equivalents at end of period                   | \$589,701   | \$351,789   |
| A31240 | Other current assets                                                                   | 3,136     | 21,201    |        |                                                              |             |             |
| A32125 | Contract liabilities                                                                   | (124,129) | 12,462    |        |                                                              |             |             |
| A32130 | Notes payable                                                                          | 2,551     | (1,938)   |        |                                                              |             |             |
| A32150 | Accounts payable                                                                       | (12,097)  | 16,167    |        |                                                              |             |             |
| A32180 | Other payables                                                                         | (70,586)  | 209,618   |        |                                                              |             |             |
| A32230 | Other current liabilities                                                              | 22,849    | 32,487    |        |                                                              |             |             |
| A33000 | Cash generated from operations                                                         | 927,909   | 1,160,779 |        |                                                              |             |             |
| A33100 | Interest received                                                                      | 4,371     | 5,028     |        |                                                              |             |             |
| A33300 | Interest paid                                                                          | (20,481)  | (8,931)   |        |                                                              |             |             |
| A33500 | Income tax paid                                                                        | (257,652) | (56,936)  |        |                                                              |             |             |
| AAAA   | Net cash provided by (used in) operating activities                                    | 654,147   | 1,099,940 |        |                                                              |             |             |
|        |                                                                                        |           |           |        |                                                              |             |             |

#### 1.HISTORY AND ORGANIZATION

Pegavision Corporation (referred to "the Company") was established on August 12, 2009. Its main business activities include the manufacture of medical device, optical instrument, precision instrument and sales of the previous related products. The Company's stocks have been governmentally approved on October 7, 2014 to be listed and traded in Taiwan Over-The-Counter Securities Exchanges starting December 30, 2014, and traded in Taiwan Stock Exchange starting on October 7, 2019. The registered business premise and main operation address is at No.5 Shing Yeh Street, GuiShan District, Taoyuan City, Taiwan 33341.

Kinsus Interconnect Technology Corp. is the Company's parent, while Pegatron Corporation is the ultimate controller of the Group to which the Company belongs.

# 2.DATE AND PROCEDURE OF AUTHORIZATION FOR FINANCIAL STATEMENTS ISSUANCE

The financial statements of the Company were authorized to be issued in accordance with a resolution of the Board of Directors' meeting held on February 10<sup>th</sup>, 2020.

# 3. NEWLY ISSUED OR REVISED STANDARDS AND INTERPRETATIONS

(1)Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Company applied for the first time the International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2019. The nature and the impact of each new standard and amendment that has a material effect on the Company is described below:

#### A.IFRS 16 "Leases"

IFRS 16 "Leases" replaces IAS 17 "Leases", IFRIC 4 "Determining whether an Arrangement contains a Lease", SIC-15 "Operating Leases - Incentives" and SIC-27 "Evaluating the Substance of Transactions Involving the Legal Form of a Lease".

The Company followed the transition provision in IFRS 16 and the date of initial application was January 1, 2019. The impacts arising from the adoption of IFRS 16 are summarised as follows:

- a.Please refer to Note 4 for the accounting policies before or after January 1, 2019.
- b.For the definition of a lease, the Company elected not to reassess whether a contract was, or contains, a lease on January 1, 2019. The Company is permitted to apply IFRS 16 to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 but not to apply IFRS 16 to contracts that were not previously identified as containing a lease applying IAS 17 and IFRIC 4. That is, for contracts entered into (or changed) on or after January 1, 2019, the Company need to assess whether contacts are, or contain, leases applying IFRS 16. In comparing to IAS 17, IFRS 16 provides that a contract is, or contains, a lease if the contract converys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company assessed most of the contracts are, or contain, leases and has no significant impact arised.
- c.The Company is a lessee and elects not to restate comparative information in accordance with the transition provision in IFRS 16. Instead, the Company recognizes the cumulative effect of initially applying IFRS 16 as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the date of initial application.
  - I.Leases previously classified as operating leases

For leases that were previously classified as operating leases applying IAS 17, the Company measured and recognized those leases as lease liability on January 1, 2019 at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019 and; The Company chooses, on a lease-by-lease basis, to measure the right-of-use asset at either:

An amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before January 1, 2019.

On January 1, 2019, the Company's right-of-use asset and lease liability increased by NT\$293,055 thousand and NT\$293,055 thousand, respectively.

In accordance with the transition provision in IFRS 16, the Company used the following practical expedients on a lease-by-lease basis to leases previously classified as operating leases:

- i. Apply a single discount rate to a portfolio of leases with reasonably similar characteristics.
- ii. Elect to account in the same way as short-term leases to leases for which the lease term ends within 12 months of January 1, 2019.
- iii.Exclude initial direct costs from the measurement of the right-of-use asset on January 1, 2019.
- iv.Use hindsight, such as in determining the lease term if the contract contains options to extend or terminate the lease.
- II.Please refer to Note 4 and Note 6 for additional disclosure of lessee and lessor which required by IFRS 16.
- III.As at January 1, 2019, the impacts arising from the adoption of IFRS 16 are summarised as follows:
  - i. The weighted average lessee's incremental borrowing rate applied to lease liabilities recognized in the balance sheet on January 1, 2019 was 1.30%.
  - ii. For leases that were classified as operating leases applying IAS 17, lease payments are recognized as an expense on a straight-line basis over the lease term. After adopting IFRS 16, the Company expects to measure and recognize those leases, except for short-term or low-value asset lease exemptions, as lease liability at the present value of the remaining lease payments, discounted using the lessee's incremental borrowing rate on January 1, 2019. Operating lease commitments under IAS 17 as of December 31, 2018 were NT\$297,120 thousand and the present value discounted at the incremental borrowing rate on January 1, 2019 were NT\$293,055 thousand. Thus, lease liabilities as of January 1, 2019 under IFRS 16 were recorded at NT\$293,055 thousand.

(2)Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, but not yet adopted by the Company as at the end of the reporting period are listed below.

|       |                                                            | Effective Date  |
|-------|------------------------------------------------------------|-----------------|
| Items | New, Revised or Amended Standards and Interpretations      | issued by IASB  |
| a     | Definition of a Business - Amendments to IFRS 3            | January 1, 2020 |
| b     | Definition of Material - Amendments to IAS 1 and 8         | January 1, 2020 |
| с     | Interest Rate Benchmark Reform - Amendments to IFRS 9, IAS | January 1, 2020 |
|       | 39 and IFRS 7                                              |                 |

A.Definition of a Business - Amendments to IFRS 3

The amendments clarify the definition of a business in IFRS 3 Business Combinations. The amendments are intended to assist entities to determine whether a transaction should be accounted for as a business combination or as an asset acquisition.

IFRS 3 continues to adopt a market participant's perspective to determine whether an acquired set of activities and assets is a business. The amendments clarify the minimum requirements for a business; add guidance to help entities assess whether an acquired process is substantive; and narrow the definitions of a business and of outputs; etc.

B.Definition of a Material - Amendments to IAS 1 and 8

The main amendment is to clarify new definition of material. It states that "information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity." The amendments clarify that materiality will depend on the nature or magnitude of information. An entity will need to assess whether the information, either individually or in combination with other information, is material in the context of the financial statements.

C.Interest Rate Benchmark Reform - Amendments to IFRS 9, IAS 39 and IFRS 7

The amendments include a number of exceptions, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is directly affected if the interest rate benchmark reform gives rise to uncertainties about the timing and or amount of benchmark-based cash flows of the hedged item or the hedging instrument. Hence, the entity shall apply the exceptions to all hedging relationships directly affected by the interest rate benchmark reform.

The amendments include:

a.highly probable requirement

When determining whether a forecast transaction is highly probable, an entity shall assume that the interest rate benchmark on which the hedged cash flows are based is not altered as a result of the interest rate benchmark reform.

# b.prospective assessments

When performing prospective assessments, an entity shall assume that the interest rate benchmark on which the hedged item, hedged risk and/or hedging instrument are based is not altered as a result of the interest rate benchmark reform.

# c.IAS 39 retrospective assessment

An entity is not required to undertake the IAS 39 retrospective assessment (i.e. the actual results of the hedge are within a range of 80–125%) for hedging relationships directly affected by the interest rate benchmark reform.

d.separately identifiable risk components

For hedges of a non-contractually specified benchmark component of interest rate risk, an entity shall apply the separately identifiable requirement only at the inception of such hedging relationships.

The amendments also include the end of application of the exceptions requirements and the related disclosures requirements of the amendments.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2020. The Company assesses all standards and interpretations have no material impact on the Company.

(3)Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are not endorsed by FSC and also not yet adopted by the Company as at the end of the reporting are listed below.

|       |                                                              | Effective Date   |
|-------|--------------------------------------------------------------|------------------|
| Items | New, Revised or Amended Standards and Interpretations        | issued by IASB   |
| a     | IFRS 10 "Consolidated Financial Statements" and IAS 28       | To be determined |
|       | "Investments in Associates and Joint Ventures" - Sale or     | by IASB          |
|       | Contribution of Assets between an Investor and its Associate |                  |
|       | or Joint Ventures                                            |                  |
| b     | IFRS 17 "Insurance Contracts"                                | January 1, 2021  |
| с     | Classfication of Liabilities as Current or Non-Current-      | January 1, 2022  |
|       | Amendments to IAS 1                                          |                  |

A.IFRS 10 Consolidated Financial Statement and IAS 28 Investments in Associates and Joint Ventures - Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full. IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full. IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors' interests in the associate or joint venture. The effective date of the amendments has been postponed indefinitely, but early adoption is allowed.

B.IFRS 17 Insurance Contracts

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a company of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The fulfilment cash flows comprise of the following:

- a.Estimates of future cash flows;
- b.Discount rate: an adjustment to reflect the time value of money and the financial risks related to the future cash flows, to the extent that the financial risks are not included in the estimates of the future cash flows; and
- c.A risk adjustment for non-financial risk.

The carrying amount of a company of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims. Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

C.Classification of Liabilities as Current or Non-current - Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. The Company assesses all standards and interpretations have no material impact on the Company.

# 4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# (1)Statement of compliance

The parent-company-only financial statements of the Company for the years ended December 31, 2019 and 2018 were prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations").

#### (2)Basis of preparation

The Company prepared parent-company-only financial statements in accordance with Article 21 of the Regulations, which provided that the profit or loss and other comprehensive income for the period presented in the parent-company-only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the consolidated financial statements for the period, and the total equity presented in the parent-company-only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. Therefore, the Company accounted for its investments in subsidiaries using equity method and, accordingly, made necessary adjustments.

The parent-company-only financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The parent-company-only financial statements are expressed in thousands of New Taiwan Dollars ("NT\$") unless otherwise stated.

(3)Foreign currency transactions

The Company's parent-company-only financial statements are presented in its functional currency, New Taiwan Dollars (NTD). Items included in the parent-company-only financial statements are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Company at functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

- A.Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.
- B.Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instrument.

C.Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(4)Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NTD at the closing rate of exchange prevailing at the reporting date and the income and expenses are translated at an average exchange rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. The following are accounted for as disposals even if an interest in the foreign operation is retained by the Company: the loss of control over a foreign operation, the loss of significant influence over a foreign operation, or the loss of joint control over a foreign operation.

On partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or jointly controlled entity that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

(5)Current and non-current distinction

An asset is classified as current when:

- A.The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
- B.The Company holds the asset primarily for the purpose of trading.
- C.The Company expects to realize the asset within twelve months after the reporting period.
- D.The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

A.The Company expects to settle the liability in its normal operating cycle.

B.The Company holds the liability primarily for the purpose of trading.

C.The liability is due to be settled within twelve months after the reporting period.

D.The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(6)Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value (include fixed-term deposits that have matures of 3 months from the date of acquisition).

(7)Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

The Company determines the classification of its financial assets at initial recognition. In accordance with IFRS 9 and the Regulations, financial assets of the Company are classified as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets measured at amortized cost and notes, accounts and other receivables. All financial assets are recognized initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable costs. Financial assets carried at fair value through profit or loss are initially recognized at fair value, and transaction costs are expensed in the income statement.

# A.Financial assets: Recognition and Measurement

Purchase or sale of financial assets is recognized using trade date accounting. The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

a.The Company's business model for managing the financial assets and b.The contractual cash flow characteristics of the financial asset.

#### Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

- a. The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
- b.The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognise the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

- a.Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
- b.Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

# Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

- a. The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and
- b.The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

- a.A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.
- b. When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.
- c.Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:
  - I.Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.
  - II.Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity instrument within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Company made an irrevocable elction to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income are not be subsequently transferred to profit or loss (when disposal of

such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

#### Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

B.Impairment of financial assets

The Company is recognized a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Company measures expected credit losses of a financial instrument in a way that reflects:

- a.An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- b.The time value of money; and
- c.Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follows:

a.At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance for a financial asset at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that condition is no longer met.

- b.At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.
- c.For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has been increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

C.Derecognition of financial assets

A financial asset is derecognized when:

- a. The rights to receive cash flows from the asset have expired
- b.The Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred
- c.The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

D.Financial liabilities and equity

# Classification between liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

# Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

# Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

# Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss. A financial liability is classified as held for trading if:

- a.It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
- b.On initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
- c.It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

a.It eliminates or significantly reduces a measurement or recognition inconsistency; or

b.A group of financial assets, financial liabilities or both is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel. Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

# Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

# Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

# E.Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

#### (8)Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

A.In the principal market for the asset or liability, or

B.In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

# (9)Inventories

Inventories are valued at lower of cost or net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows.

Raw materials - At actual purchase cost, using weighted average method Finished goods and work in progress - Cost of direct materials and labor and a proportion of manufacturing overheads excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

#### (10)Investments accounted for using the equity method

The Company accounted for its investments in subsidiaries using equity method and made necessary adjustments in accordance with Article 21 of the Regulations. Such adjustments were made after the Company considered the different accounting treatments to account for its investments in subsidiaries in the consolidated financial statements under IFRS 10 "Consolidated Financial Statements" and the different IFRSs adopted from different reporting entity's perspectives, and the Company recorded such adjustments by crediting or debiting to investments accounted for under the equity method, share of profit or loss of subsidiaries, associates and joint ventures and share of other comprehensive income of subsidiaries, associates and joint ventures.

The Company's investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Company has significant influence.

Under the equity method, the investment in the associate or investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Company's share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Company and the associate or joint venture are eliminated to the extent of the Company's related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affects the Company's percentage of ownership interests in the associate or joint venture, the Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a prorata basis.

When the associate or joint venture issues new stock, and the Company's interest in an associate or a joint venture is reduced or increased as the Company fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Company disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

The Company determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 Investments in Associates and Joint Ventures. If this is the case the Company calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 Impairment of Assets. In determining the value in use of the investment, the Company estimates:

- A.Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
- B.The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 Impairment of Assets.

Upon loss of significant influence over the associate or joint venture, the Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss. Furthermore, if an investment in an associate becomes an investment in a joint venture or an investment in a joint venture becomes an investment in an associate, the entity continues to apply the equity method and does not remeasure the retained interest.

(11)Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 "Property, plant and equipment". When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

| Buildings                | 16.5 years        |
|--------------------------|-------------------|
| Machinery and equipment  | 6 years           |
| Transportation equipment | $2\sim 6$ years   |
| Office equipment         | $3 \sim 6$ years  |
| Other equipment          | $1 \sim 11$ years |

An item of property, plant and equipment or any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognizion of the asset is recognized in profit or loss.

The asset's residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

# (12)Leases

# The accounting policy from January 1, 2019 as follow:

For contracts entered on or after January 1, 2019, the Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Company assesses whether, throughout the period of use, has both of the following:

- A.The right to obtain substantially all of the economic benefits from use of the identified asset; and
- B.The right to direct the use of the identified asset.

The Company elected not to reassess whether a contract is, or contains, a lease on January 1, 2019. The Company is permitted to apply IFRS 16 to contracts that were previously identified as leases applying IAS 17 and IFRIC 4 but not to apply IFRS 16 to contracts that were not previously identified as containing a lease applying IAS 17 and IFRIC 4.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-

alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

#### Company as a lessee

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use asset and lease liability for all leases which the Company is the lessee of those lease contracts.

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

- A.fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- B.variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- C.amounts expected to be payable by the lessee under residual value guarantees;
- D.the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
- E.payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Company measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

- A.the amount of the initial measurement of the lease liability;
- B.any lease payments made at or before the commencement date, less any lease incentives received;
- C.any initial direct costs incurred by the lessee; and

D.an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use asset reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of lowvalue assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

# Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

#### The accounting policy before January 1, 2019 as follow:

#### Company as a lessee

Operating lease payments are recognized as an expense on a straight-line basis over the lease term.

#### Company as a lessor

Leases in which the Company does not transfer substantially all the risks and benefits of ownership of the asset are classified as operating leases. Initial direct costs incurred in negotiating an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

#### (13)Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, not meeting the recognition criteria, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite

life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

A summary of the policies applied to the Company's intangible assets is as follows:

|                                             | Cost of Computer Software                     |
|---------------------------------------------|-----------------------------------------------|
| Useful economic life                        | 2~5 years                                     |
| Amortization method                         | Straight-line method during the contract term |
| Internally generated or acquired externally | Acquired externally                           |

(14)Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 Impairment of Assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cashgenerating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

# (15)Revenue recognition

The Company's revenue arising from contracts with customers mainly includes sale of goods. The accounting policies are explained as follow:

# Sale of goods

The Company manufactures and sells of its products. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Company is contact lenses and revenue is recognized based on the consideration stated in the contract. The Company recognized an allowance for sale return and discount shall be presented under the caption of refund liabilities within other current liabilities when partial or all considerations received might be returned or a chargeback is expected to occur.

The credit period of the Company's sale of goods is from T/T to 90 days. For most of the contracts, when the Company transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Company usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract.

#### (16)Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

# (17)Post-employment benefits

All regular employees of the Company are entitled to a pension plan that is managed by an independently administered pension fund committee. Fund assets are deposited under the committee's name in the specific bank account and hence, not associated with the Company.

Therefore, fund assets are not included in the Company's parent-company-only financial statements.

For the defined contribution plan, the Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due.

# (18)Income tax

Income tax expense (benefit) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

# Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings of the Company is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

# Deferred income tax

Deferred income tax is a temporary difference between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- A.Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;
- B.In respect of taxable temporary differences associated with investments in subsidiaries, and associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- A.Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- B.In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will be reversed in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized according.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

# 5. SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's parent-company-only financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

#### Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that would have a significant risk for a material adjustment to the carrying amounts of assets and liabilities within the next fiscal year are discussed below.

## (1)Revenue recognition - sale returns and allowances

The Company estimates sales returns and allowance based on historical experience and other known factors at the time of sale, which reduces the operating revenue. In assessing the aforementioned sales returns and allowance, revenue is recognized to the extent it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Please refer to Note 6 for more details.

#### (2)Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

#### (3)Accounts receivables - estimation of impairment loss

The Company estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the

contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

# (4)Inventory

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

# 6. CONTENTS OF SIGNIFICANT ACCOUNTS

(1)Cash and cash equivalents

|                       | As of Dece | As of December 31, |  |  |  |

C.Details of property, plant & equipment and prepayment for equipment is as follows:

|                               | As of Dec   | As of December 31, |  |
|-------------------------------|-------------|--------------------|--|
|                               | 2019        | 2018               |  |
| Property, plant and equipment | \$3,023,144 | \$2,057,132        |  |
| Prepayment for equipment      | 49,286      | 450,820            |  |
| Total                         | \$3,072,430 | \$2,507,952        |  |

D.For the years ended December 31, 2019 and 2018, NT\$12,149 thousand and NT\$49,770 thousand impairment loss represented the write down of certain property, plant and equipment to the recoverable amount. This has been recognized in the statement of comprehensive income. The recoverable value is measured at usage values by the individual units.

E.Please refer to Note 8 for more details on property, plant and equipment under pledge.

- Note 1: A term is defined as every 3 months starting from the initial draw-down date. Grace period is 1 years (4 terms). The rest is repayable in installments of equal amount for 8 terms. Reimbursement in advance in 2019.
- Note 2: A term is defined as every 3 months starting from the initial draw-down date. Grace period is 1 years (4 terms). The rest is repayable in installments of equal amount for 16 terms. Reimbursement in advance in 2019.
- B. Please refer to Note 8 for more details regarding assets pleded for secured bank borrowings.
- C.As of December 31, 2019 and 2018, the interest rate intervals for long-term borrowings were 1.20%~1.35% and 1.30%~1.35%, respectively.

(14)Post-employment benefits

# Defined contribution plan

The Company adopted a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Company has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Expenses under the defined contribution plan for the years ended December 31, 2019 and 2018 are NT\$29,236 thousand and NT\$29,516 thousand, respectively.

Pension for the years ended December 31, 2019 and 2018 were NT\$52 thousand and NT\$51 thousand, respectively.

## (15)Equity

# A.Common stock

As of December 31, 2019 and 2018, the Company's authorized capital were NT\$800,000 thousand, and paid-in capital were NT\$700,000 thousand and NT\$600,000 thousand, each share at par value of NT\$10, divided into 70,000 thousand and 60,000 thousand. Each share has one voting right and a right to receive dividends.

The Company passed the proposal of cash capital increase, 10,000 thousands shares, by board of directors on July 29, 2019. Except for 15% of new shares, 1,500 thousands shares, for employees to subscribe according to Article 267 of the Company Law, the remaining 8,500

thousands shares were given up by shareholders through the shareholders' meeting on June 16, 2015. The Company consigned the underwriter to underwrite before listing. The proposal of cash capital increase were effectively registered by Taiwan Stock Exchange on August 21, 2019. The base date of capital increase was October 4, 2019.

## **B.**Capital surplus

|                            | As of Dec   | ember 31, |
|----------------------------|-------------|-----------|
|                            | 2019 2018   |           |
| Additional paid-in capital | \$1,804,928 | \$240,000 |

According to Taiwan Company Act, the capital surplus shall not be used except for making good the deficit of the Company. When a company incurs no loss, it may distribute the capital surplus related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them. Capital surplus related to long-term equity investments cannot be used for any purpose.

# C.Appropriation of earnings and dividend policies

#### a. Distribution of earnings

The Company's shareholder's meeting held on June 14, 2019 passed the resolution of amending the Articles of Incorporation, according to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

I. Payment of all taxes and dues;

II.Offset prior years' operation losses;

- III.Set aside 10% of the remaining amount as legal reserve. There is no requirement to further make such reserve when legal reserve reaches the capital amount.
- IV.Set aside or reverse special reserve in accordance with law and regulations; and
- V.The distribution of the remaining portion, if any, will be recommended by the Board of Directors and resolved in the shareholders' meeting.

If the above-mentioned dividends are distributed to shareholders in the form of cash, the Board of Directors have been authorized to approve by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, and report to the shareholder's meeting.

# b.Dividend policy

The Company is in an industry with versatile environment. For long-term finance planning requirements and to meet the shareholders' demand for cash, the Company's dividend policy aims for steadiness and balancing. Dividends to be distributed in cash for each year shall not be less than 10% of the total dividends paid.

# c.Legal reserve

According to the Company Act, legal reserve shall be set aside until such amount equal total authorized capital. Legal reserve can be used to offset deficits. If the Company does not incur any loss, the portion of legal reserve exceeding 25% of the paid-in capital may be distributed to shareholders by issuing new shares or by cash in proportion to the number of shares held by each shareholder.

# d.Special reserve

Pursuant to existing regulations, the Company is required to set additional special reserve equivalent to the net debit balance of the other components of shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

Following the adoption of T-IFRS, the FSC on April 6, 2012 issued Order No. Financial-Supervisory-Securities-Corporate-1010012865, which sets out the following provisions for compliance:

On a public company's first-time adoption of the T-IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders' equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside an equal amount of special reserve. Following a company's adoption of the T-IFRS for the preparation of its financial reports, when distributing distributable earnings, it shall set aside to special reserve, from the profit/loss of the current period and the undistributed earnings from the previous period, an amount equal to "other net deductions from shareholders' equity for the current fiscal year, provided that if the company has already set aside special reserve according to the requirements in the preceding point, it shall set aside and other net deductions from shareholders' equity. For any subsequent reversal of other net deductions from shareholders' equity, the amount reversed may be distributed.

The Company did not incur any special reserve upon the first-time adoption of T-IFRS.

e.The appropriations of earnings for the Years 2019 and 2018 were approved through the Board of Directors' meetings and shareholders' meetings held on February 10, 2020 and June 14, 2019, respectively. The details of the distributions are as follows.

|                 |               |               | Dividend  | per share |
|-----------------|---------------|---------------|-----------|-----------|
|                 | Appropriation | n of earnings | (in NT\$) |           |
|                 | 2019 2018     |               | 2019      | 2018      |
| Legal reserve   | \$47,549      | \$54,115      |           |           |
| Special reserve | 4,557         | 746           |           |           |
| Cash dividend   | 175,000       | 90,000        | \$2.5     | \$1.5     |
| Total           | \$227,106     | \$144,861     | _         |           |

Please refer to Note 6(19) for details on employees' compensation and remuneration to directors and supervisors.

# (16)Operating revenue

#### (18)Leases

A.Company as a lessee (applicable to the disclosure requirement under IFRS 16)

The Company leases various properties, including real estate such as land and buildings, machinery and equipment and transportation equipment. The lease terms range from 1 to 7 years. The Company is not allowed to lend, sublease, or sell without obtaining the consent from the lessors.

The effect of leases on the Company's financial position, financial performance and cash flows are as follow:

a.Amounts recognized in the balance sheet

#### I.Right-of-use assets

|                     |            |           | Machinery and | Transportation |           |

Note: The Company adopted IFRS 16 since January 1, 2019. The Company elected not to restate prior periods in accordance with the transition provision in IFRS 16.

## **II.Lease** liabilities

|                   | As of December 31, |             |  |
|-------------------|--------------------|-------------|--|
|                   | 2019               | 2018 (Note) |  |
| Lease liabilities | \$156,893          |             |  |
|                   |                    |             |  |
| Current           | \$109,912          |             |  |
| Non-current       | \$46,981           |             |  |

Please refer to Note 6 (20)(c) for the interest on lease liabilities recognized during the year ended 31 December 2019 and refer to Note 12 (5) Liquidity Risk Management for the maturity analysis for lease liabilities as at December 31, 2019.

Note: The Company adopted IFRS 16 since January 1, 2019. The Company elected not to restate prior periods in accordance with the transition provision in IFRS 16.

b.Income and costs relating to leasing activities

|                                              | For the year ended December 31, |            |
|----------------------------------------------|---------------------------------|------------|
| _                                            | 2019                            | 2018(Note) |
| The expenses relating to short-term leases   | \$(27,356)                      |            |
| The expenses relating to leases of low-value | (1,137)                         |            |
| assets                                       |                                 |            |
| Income from subleasing right-of-use assets   | 450                             |            |

Note: The Company adopted IFRS 16 since January 1, 2019. The Company elected not to restate prior periods in accordance with the transition provision in IFRS 16.

The portfolio of short-term leases of the Company to which it is committed at the end of the reporting period is dissimilar to the portfolio of short-term leases to which the short-term lease expenses disclosed above, and the amount of its lease commitments is NT\$0.

c.Cash outflow relating to leasing activities

During the year ended December 31, 2019, the Company's total cash outflows for leases amounting to NT\$157,163 thousand.

B.Operating lease commitments - Company as a lessee (applicable to the disclosure requirement in IAS 17)

The Company has entered into commercial leases on plants. These leases have an average life of one to five years with no renewal option included in the contracts. There are no restrictions placed upon the Company by entering into these leases.

Future minimum rentals payable under non-cancellable operating leases as at December 31, 2019 and 2018 are as follows:

|                                             | As of December 31, |           |
|---------------------------------------------|--------------------|-----------|
|                                             | 2019 (Note)        | 2018      |
| Less than one year                          |                    | \$147,353 |
| More than one year but less than five years |                    | 149,767   |
| Total                                       |                    | \$297,120 |

Operating lease expenses recognized are as follows:

|                        | For the year ended December 31, |           |  |
|------------------------|---------------------------------|-----------|--|
|                        | 2019(Note) 2018                 |           |  |
| Minimum lease payments | =                               | \$147,353 |  |

Note: The Company adopted IFRS 16 since January 1, 2019. The Company elected not to restate prior periods in accordance with the transition provision in IFRS 16.

(19)Summary statement of employee benefits, depreciation and amortization by function is as follows:

Note:

- 1. The headcounts of the Company amounted to 1,382 and 1,476, respectively, as of December 31, 2019 and 2018. Among the Company's directors, there were 8 who were not the employees.
- 2.Companies who have been listed on Taiwan Stock Exchange or Taiwan Over-The Counter Securities Exchange should disclose the following information:
  - (1)Average employee benefits of 2019 and 2018 are NT\$711 thousand and NT\$760 thousand respectively.
  - (2)Average salaries of 2019 and 2018 are NT\$605 thousand and NT\$657 thousand respectively.
  - (3)Changes in average salaries are (8)%.

According to the Article of Incorporation, not lower than 10% of profit of the current year is distributable as employees' compensation and no higher than 1% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered.

The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on profit, the Company estimated the amounts of the employees' compensation and remuneration to directors for the year ended December 31, 2019 amounted to NT\$71,933 thousand and NT\$6,255 thousand, respectively. The employees' compensation and remuneration to directors for the year ended December 31, 2018 amounted to NT\$99,078 thousand and NT\$8,615 thousand, respectively, recognized as employee benefits.

The Company's Board has determined the employees' compensation and directors' renumeration, all in cash, to be NT\$71,933 thousand and NT\$6,255 thousand, respectively, in a meeting held on February 10, 2020. No material differences exist between the estimated amount and the actual distribution of the employee bonuses and remuneration to directors for the year ended December 31, 2019.

The Company's Board has determined the employees' compensation and directors' renumeration, all in cash, to be NT\$99,078 thousand and NT\$8,612 thousand, respectively, in a meeting held on February 18, 2019. The NT\$3 thousand differences between the estimated

amount and the actual distribution of the employee bonuses and remuneration to directors for the year ended December 31, 2018, were recognized as gain or loss in the next year.

#### (22)Income tax

Based on the amendments to the Income Tax Act announced on 7 February, 2018, the Company's applicable corporate income tax rate for the year ended 31 December 2018 has changed from 17% to 20%. The corporate income surtax on undistributed retained earnings has changed from 10% to 5%.

# A.The major components of income tax expense (income) are as follows:

# Income tax expense (benefit) recognized in profit or loss

|                                                                                                   | For the year ended December 31, |           |
|---------------------------------------------------------------------------------------------------|---------------------------------|-----------|
|                                                                                                   | 2019                            | 2018      |
| Current income tax expense (income):                                                              |                                 |           |
| Current income tax expense                                                                        | \$87,055                        | \$208,478 |
| Adjustments in respect of current income tax of prior periods                                     | (17,745)                        | 2,383     |
| Deferred tax expense (income):                                                                    |                                 |           |
| Deferred tax expense (income) relating to<br>origination and reversal of temporary<br>differences | 2,513                           | 1,838     |
| Total income tax expense (income)                                                                 | \$71,823                        | \$212,699 |

B.A reconciliation between tax expense and the product of accounting profit multiplied by applicable tax rates is as follows:

|                                                               | For the year ended December 31, |           |  |
|---------------------------------------------------------------|---------------------------------|-----------|--|
|                                                               | 2019                            | 2018      |  |
| Accounting profit before tax from continuing                  |                                 |           |  |
| operations                                                    | \$547,315                       | \$753,855 |  |
| Tax payable at the enacted tax rates                          | \$109,463                       | \$150,771 |  |
| Tax effect of income tax-exempted                             | (33)                            | (463)     |  |
| Tax effect of expenses not deductible for tax purposes        | 42                              | 53        |  |
| Tax effect of deferred tax assets/liabilities                 | 835                             | 39,255    |  |
| Surtax on undistributed earnings                              | 19,815                          | 27,169    |  |
| Adjustments in respect of current income tax of prior periods | (17,745)                        | 2,383     |  |
| Other adjustments according to the Tax Law                    | (40,554)                        | (6,469)   |  |
| Total income tax recognized in profit or loss                 | \$71,823                        | \$212,699 |  |

# D.Unrecognized deferred tax assets

As of December 31, 2019 and 2018, deferred tax assets that have not been recognized as they may not be used to offset future taxable income amounted to NT\$63,596 thousand and NT\$62,761 thousand, respectively.

## E.The assessment of income tax returns

As of December 31, 2019, the assessment of the income tax returns of the Company have been approved up to the year of 2016.

#### (23)Earnings per share

Basic earnings per share is calculated by dividing net profit for the year attributable to the common shareholders of the parent entity by the weighted average number of common stocks outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting any influences) by the weighted average number of common stocks outstanding during the year plus the weighted average number of common stocks that would be issued on conversion of all the dilutive potential common stocks into common stocks.

| Total             | \$1,011,616 | \$1,704,565 |

Note: The Company adopted IFRS 16 since January 1, 2019. The Company elected not to restate prior periods in accordance with the transition provision in IFRS 16.

(2)Financial risk management objectives and policies

The Company's principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Company identifies, measures, and manages the aforementioned risks based on its policy and risk appetite.

The Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Company complies with its financial risk management policies at all times.

## (3)Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprises currency risk, interest rate risk and other price risk (e.g. equity instruments).

In practice, it is rarely the case that a single risk variable will change independently from other risk variables. There is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

#### Foreign currency risk

The Company's exposure to foreign currency risk relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency) and the Company's net investments in foreign subsidiaries.

The Company has certain foreign currency receivables to be denominated in the same foreign currency as certain foreign currency payables, therefore natural hedge is achieved. Therefore, hedge accounting is not adopted.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Company's profit/loss and equity is performed on significant monetary items denominated in foreign currencies as of the reporting period-end. The Company's foreign currency risk is mainly related to volatility in the exchange rates of US dollars and CNY dollars. The information of the sensitivity analyses is as follows:

When NTD appreciates/depreciates against USD by 1%, the net income (loss) for the years ended 31 December 2019 and 2018 would decrease/increase by NT\$604 thousand and NT\$2,164 thousand, respectively.

When NTD appreciates/depreciates against CNY by 1%, the net income (loss) for the years ended 31 December 2019 and 2018 would decrease/increase by NT\$2,785 thousand and NT\$2,743 thousand, respectively.

# Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk relates primarily to the Company's investments with variable interest rates and bank borrowings with fixed interest rates and variable interest rates, which are all categorized as bank borrowings and receivables.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as of the end of the reporting period and presumed to be held for one accounting year, including investments and bank borrowing with variable interest rates. If interest rate increases/decreases by 1%, the net income (loss) for the years ended December 31, 2019 and 2018 would increase/decrease by NT\$2,219 thousand and decrease/increase by NT\$3,479 thousand, respectively.

#### Equity price risk

As of December 31, 2019 and 2018, the Company does not hold equity securities at fair value; therefore the Company is not subject to equity price risk.

# (4)Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a contract and result in a financial loss. The Company is exposed to credit risk from operating activities (primarily for accounts and notes receivable) and from its financing activities, including bank deposits and other financial instruments. Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to credit risk management. Credit risk of all customers are assessed based on a comprehensive review of the customers' financial status, credit ratings from credit institutions, past transactions, current economic conditions and the Company's internal credit ratings. The Company also employs some credit enhancement instruments (e.g. prepayment or insurance) to reduce certain customers' credit risk.

As of December 31, 2019 and 2018, receivables from the top ten customers were accounted for 89.27% and 65.74% of the Company's total accounts receivable, respectively. The concentration of credit risk is relatively not significant for the remaining receivables.

Credit risk from balances with banks, fixed-income securities and other financial instruments is managed by the Company's finance division in accordance with the Company's policy. The counterparties that the Company transacts with are determined by internal control procedures. They are banks with fine credit ratings and financial institutions, corporate and government agencies with investment-grade credit ratings. Thus, there is no significant default risk. Consequently, there is no significant credit risk for these counter parties.

The Company adopted IFRS 9 to assess the expected credit losses. Except for the loss allowance of trade receivables is measured at lifetime expected credit losses, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5)Liquidity risk management

The Company maintains financial flexibility through the use of cash and cash equivalents, highly-liquid marketable securities, bank loans, etc. The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted interest payment relating to borrowings with variable interest rates is extrapolated based on the estimated yield curve as of the end of the reporting period.

#### Movement schedule of liabilities for the year ended December 31, 2018:

|                         | Short-term | Long-term  | Refundable | Lease liabilities | Total liabilities from |
|-------------------------|------------|------------|------------|-------------------|------------------------|
|                         | borrowings | borrowings | deposits   | (Note)            | financing activities   |
| As of January 1, 2018   | \$96,839   | \$101,000  | \$582      |                   | \$198,421              |
| Cash flows              | 62,662     | 499,000    | 1,477      |                   | 563,139                |
| As of December 31, 2018 | \$159,501  | \$600,000  | \$2,059    |                   | \$761,560              |

Note: The Company adopted IFRS 16 since January 1, 2019. The Company elected not to restate prior periods in accordance with the transition provision in IFRS 16.

(7)Fair values of financial instruments

A.The evaluation methods and assumptions applied in determining the fair value

Fair value is the price that would be received to sell a financial asset or paid to transfer a financial liability in an orderly transaction between willing market participants (not under coercion or liquidation). The following methods and assumptions are used by the Company in estimating the fair values of financial assets and liabilities:

- a. The carrying amount of cash and cash equivalents, receivables, payables and other current liabilities approximate their fair value due to their short maturities.
- b.For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities and bonds).
- c.Fair value of equity instruments without market quotations, bank borrowing and other noncurrent liabilities are determined based on the counterparty prices or valuation method (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).
- B.Fair value of financial instruments measured at amortized cost

The carrying amount of the Company's financial assets and liabilities measure at amortized cost approximates their fair value.

C.Fair value measurement hierarchy for financial instruments

Please refer to Note 12(8) for fair value measurement hierarchy for financial instruments of the Company.

(8)Fair value measurement hierarchy

A.Fair value measurement hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B.Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis is as follows.

### As of December 31, 2019

|                                        | Level 1   | Level 2 | Level 3 | Total     |
|----------------------------------------|-----------|---------|---------|-----------|
| Financial assets:                      |           |         |         |           |
| Financial assets at fair value through |           |         |         |           |

### (10)Capital management

The primary objective of the Company's capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages and adjusts its capital structure in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

### 13. ADDITIONAL DISCLOSURES

- (1)Information on significant transactions
  - A.Financing provided to others: None.
  - B.Endorsement/Guarantee provided to others: None.
  - C.Marketable securities held as of December 31, 2019 (excluding investments in subsidiaries, associates and joint ventures): Please refer to attachment 1.
  - D.Individual securities acquired or disposed of with accumulated amount of at least NT\$300 million or 20 percent of the paid-in capital for the year ended December 31, 2019: Please refer to attachment 2.
  - E.Acquisition of individual real estate with amount of at least NT\$300 million or 20 percent of the paid-in capital for the year ended December 31, 2019: Please refer to attachment 3.
  - F.Disposal of individual real estate with amount of at least NT\$300 million or 20 percent of the paid-in capital for the year ended December 31, 2019: None.
  - G.Related party transactions with purchase or sales amount of at least NT\$100 million or 20 percent of the paid-in capital for the year ended December 31, 2019: Please refer to attachment 4.
  - H.Receivables from related parties of at least NT\$100 million or 20 percent of the paid-in capital as of December 31, 2019: Please refer to attachment 5.
  - I.Derivative instrument transactions: None.

- (2)Information on investees
  - A.Investees over whom the Company exercises significant influence or control (excluding investees in Mainland China): Please refer to attachment 6.
  - B.Investees over which the Company exercises control shall be disclosed of information under Note 13(1):
    - a.Financing provided to others: None.
    - b.Endorsement/Guarantee provided to others: None.
    - c.Marketable securities held as of December 31, 2019 (excluding investments in subsidiaries, associates and joint ventures): None.
    - d.Individual securities acquired or disposed of with accumulated amount of at least NT\$300 million or 20 percent of the paid-in capital for the year ended December 31, 2019: None.
    - e.Acquisition of individual real estate with amount of at least NT\$300 million or 20 percent of the paid-in capital for the year ended December 31, 2019: None.
    - f.Disposal of individual real estate with amount of at least NT\$300 million or 20 percent of the paid-in capital for the year ended December 31, 2019: None.
    - g.Related party transactions with purchase or sales amount of at least NT\$100 million or 20 percent of the paid-in capital for the year ended December 31, 2019: Please refer to attachment 7.
    - h.Receivables from related parties of at least NT\$100 million or 20 percent of the paid-in capital as of December 31, 2019: None.
    - i.Derivative instrument transactions: None.
