INDEPENDENT AUDITORS' REPORT

To: the Board of Directors and Shareholders of
Pegavision Corporation

Opinion

We have audited the accompanying parent-company-only balance sheets of Pegavision Corporation (the "Company") as of December 31, 2022 and 2021, and the related parent-company-only statements of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the parent-company-only financial statements, including the summary of significant accounting policies (together referred as "the parent-company-only financial statements").

In our opinion, the parent-company-only financial statements referred to above present fairly, in all material respects, the parent-company-only financial position of the Company as of December 31, 2022 and 2021, and the parent-company-only financial performance and cash flows for the years then ended, in conformity with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Auditing and Attestation of Financial Statements by Certified Public Accountants and the Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Parent-Company-Only Financial Statements section of our report. We are independent of the Company in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China (the "Norm"), and we have fulfilled our other ethical responsibilities in accordance with the Norm. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of the most significance in our audit of parent-company-only financial statements for the year ended December 31, 2022. These matters were addressed in the context of our audit of the parent-company-only financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Revenue Recognition

We determine that revenue recognition is one of the key audit matters. The Company's revenue amounting to NT$5,603,362 thousand for the year ended December 31, 2022 is a significant account to the Company's financial statements. The Company has conducted these sale activities in multi-marketplace, including Taiwan, China, Japan, etc. Furthermore, the timing of fulfilling performance obligation needs to be determined based on varieties of sale terms and conditions enacted in the main sale contracts or sale orders. We therefore conclude that there are significant risks with respect to the topic of revenue recognition.

Our audit procedures therefore include, but not limit to, evaluating the properness of accounting policy for revenue recognition, assessing and testing the effectiveness of relevant internal controls related to revenue recognition, sampling-test of details, including obtaining major sale orders or agreements to inspect the terms and conditions, checking the consistency of the fulfillment timing, performing analytical review procedures on sale revenues, and executing sale cut-off tests, etc. We have also evaluated the appropriateness of the related disclosure in Note 6 to the financial statements.

Market valuation on Inventory

We determined the market valuation on inventory is also one of key audit matters. The Company's net inventory amounted to NT$405,945 thousand, representing 5% of total assets, as of December 31, 2022, which is significant to the Company's financial statements. The market of the Company's main products, is characterized by fierce competition and the trend of consumers' preference, management, in timely considering the status of new products development and the demand from clients, has to evaluate the loss due to market value decline as well as write-down on slow-moving inventories to their net realizable value.

Our audit procedures therefore include, but not limit to, evaluating the Company's policy with respect to assessment the loss from slow-moving inventory and phased-out items, (including identification method, testing the accuracy of inventory aging schedule, analysis on inventory movement), evaluating the physical inventory stock take plan report provided by the management and choose the significant location to perform the observation, and inspecting the current status of inventory usage, etc. We also evaluated the appropriateness of related disclosure in the Note 5 and 6 to the financial statements.

Responsibilities of Management and Those Charged with Governance for the Parent-Company-Only Financial Statements

Management is responsible for the preparation and fair presentation of the parent-company-only financial statements in accordance with the requirements of the Regulations Governing the Preparation of Financial Reports by Securities Issuers and for such internal control as management determines is necessary to enable the preparation of parent-company-only financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the parent-company-only financial statements, management is responsible for assessing the ability to continue as a going concern of the Company, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including audit committee, are responsible for overseeing the financial reporting process of the Company.

Auditor's Responsibilities for the Audit of the Parent-Company-Only Financial Statements

Our objectives are to obtain reasonable assurance about whether the parent-company-only financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these parent-company-only financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the parent-company-only financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the Company.

3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability to continue as a going concern of the Company. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the parent-company-only financial statements, including the accompanying notes, and whether the parent-company-only financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Company to express an opinion on the parent-company-only financial statements. We are responsible for the direction, supervision and performance of the company audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of 2022 parent-company-only financial statements and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

(The accompanying notes are an integral part of the parent-company-only financial statements.)

1.HISTORY AND ORGANIZATION

Pegavision Corporation (referred to "the Company") was established on August 12, 2009. Its main business activities include the manufacture of medical device, optical instrument, precision instrument and sales of the previous related products. The Company's stocks have been governmentally approved on October 7, 2014 to be listed and traded in Taiwan Over-The-Counter Securities Exchanges starting December 30, 2014, and traded in Taiwan Stock Exchange starting on October 7, 2019. The registered business premise and main operation address is at No.5 Shing Yeh Street, GuiShan District, Taoyuan City, Taiwan 33341.

Kinsus Interconnect Technology Corp. is the Company's parent, while Pegatron Corporation is the ultimate controller of the Group to which the Company belongs.

2.DATE AND PROCEDURE OF AUTHORIZATION FOR FINANCIAL STATEMENTS ISSUANCE

The financial statements of the Company were authorized to be issued in accordance with a resolution of the Board of Directors' meeting held on February 13th, 2023.

3.NEWLY ISSUED OR REVISED STANDARDS AND INTERPRETATIONS

(1)Changes in accounting policies resulting from applying for the first time certain standards and amendments

The Company applied for the first time the International Financial Reporting Standards, International Accounting Standards, and Interpretations issued, revised or amended which are recognized by Financial Supervisory Commission ("FSC") and become effective for annual periods beginning on or after January 1, 2022. The adoption of these new standards and amendments had no material impact on the company.

(2)Standards or interpretations issued, revised or amended, by International Accounting Standards Board ("IASB") which are endorsed by FSC, and not yet adopted by the Company as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	Disclosure Initiative - Accounting Policies – Amendments to IAS 1	January 1, 2023
b	Definition of Accounting Estimates – Amendments to IAS 8	January 1, 2023
c	Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12	January 1, 2023

(a)Disclosure Initiative - Accounting Policies – Amendments to IAS 1

The amendments improve accounting policy disclosures that to provide more useful information to investors and other primary users of the financial statements.

(b)Definition of Accounting Estimates – Amendments to IAS 8

The amendments introduce the definition of accounting estimates and include other amendments to IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors to help companies distinguish changes in accounting estimates from changes in accounting policies.

(c)Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to IAS 12

The amendments narrow the scope of the recognition exemption in paragraphs 15 and 24 of IAS 12 so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences.

The abovementioned standards and interpretations were issued by IASB and endorsed by FSC so that they are applicable for annual periods beginning on or after January 1, 2023. The Company assesses all standards and interpretations have no material impact on the Company.

(3)Standards or interpretations issued, revised or amended, by IASB which are not endorsed by FSC, and not yet adopted by the Company as at the end of the reporting period are listed below.

Items	New, Revised or Amended Standards and Interpretations	Effective Date issued by IASB
a	IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” – Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures	To be determined by IASB
b	IFRS 17 “Insurance Contracts”	January,1 2023
c	Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January,1 2024
d	Lease Liability in a Sale and Leaseback – Amendments to IFRS 16	January,1 2024
e	Non-current Liabilities with Covenants – Amendments to IAS 1	January,1 2024

(a)IFRS 10 “Consolidated Financial Statements” and IAS 28 “Investments in Associates and Joint Ventures” – Sale or Contribution of Assets between an Investor and its Associate or Joint Ventures

The amendments address the inconsistency between the requirements in IFRS 10 Consolidated Financial Statements and IAS 28 Investments in Associates and Joint Ventures, in dealing with the loss of control of a subsidiary that is contributed to an associate or a joint venture. IAS 28 restricts gains and losses arising from contributions of non-monetary assets to an associate or a joint venture to the extent of the interest attributable to the other equity holders in the associate or joint ventures. IFRS 10 requires full profit or loss recognition on the loss of control of the subsidiary. IAS 28 was amended so that the gain or loss resulting from the sale or contribution of assets that constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized in full.

IFRS 10 was also amended so that the gains or loss resulting from the sale or contribution of a subsidiary that does not constitute a business as defined in IFRS 3 between an investor and its associate or joint venture is recognized only to the extent of the unrelated investors’ interests in the associate or joint venture.

(b)IFRS 17 “Insurance Contracts”

IFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects (including recognition, measurement, presentation and disclosure requirements). The core of IFRS 17 is the General (building block) Model, under this model, on initial recognition, an entity shall measure a group of insurance contracts at the total of the fulfilment cash flows and the contractual service margin. The carrying amount of a group of insurance contracts at the end of each reporting period shall be the sum of the liability for remaining coverage and the liability for incurred claims.

Other than the General Model, the standard also provides a specific adaptation for contracts with direct participation features (the Variable Fee Approach) and a simplified approach (Premium Allocation Approach) mainly for short-duration contracts.

IFRS 17 was issued in May 2017 and it was amended in 2020 and 2021. The amendments include deferral of the date of initial application of IFRS 17 by two years to annual beginning on or after January 1, 2023 (from the original effective date of January 1, 2021); provide additional transition reliefs; simplify some requirements to reduce the costs of applying IFRS 17 and revise some requirements to make the results easier to explain. IFRS 17 replaces an interim Standard – IFRS 4 Insurance Contracts – from annual reporting periods beginning on or after January 1, 2023.

(c)Classification of Liabilities as Current or Non-current – Amendments to IAS 1

These are the amendments to paragraphs 69-76 of IAS 1 Presentation of Financial statements and the amended paragraphs related to the classification of liabilities as current or non-current.

(d)Lease Liability in a Sale and Leaseback – Amendments to IFRS 16

The amendments add seller-lessees additional requirements for the sale and leaseback transactions in IFRS 16, thereby supporting the consistent application of the standard.

(e)Non-current Liabilities with Covenants – Amendments to IAS 1

The amendments improved the information companies provide about long-term debt with covenants. The amendments specify that covenants to be complied within twelve months after the reporting period do not affect the classification of debt as current or non-current at the end of the reporting period.

The abovementioned standards and interpretations issued by IASB have not yet endorsed by FSC at the date when the Company's financial statements were authorized for issue, the local effective dates are to be determined by FSC. The Company assesses all standards and interpretations have no material impact on the Company.

4.SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(1)Statement of compliance

The parent-company-only financial statements of the Company for the years ended December 31, 2022 and 2021 were prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers ("the Regulations").

(2)Basis of preparation

The Company prepared parent-company-only financial statements in accordance with Article 21 of the Regulations, which provided that the profit or loss and other comprehensive income for the period presented in the parent-company-only financial statements shall be the same as the profit or loss and other comprehensive income attributable to stockholders of the parent presented in the consolidated financial statements for the period, and the total equity presented in the parent-company-only financial statements shall be the same as the equity attributable to the parent company presented in the consolidated financial statements. Therefore, the Company accounted for its investments in subsidiaries using equity method and, accordingly, made necessary adjustments.

The parent-company-only financial statements have been prepared on a historical cost basis, except for financial instruments that have been measured at fair value. The parent-company-only financial statements are expressed in thousands of New Taiwan Dollars ("NT$") unless otherwise stated.

(3)Foreign currency transactions

The Company's parent-company-only financial statements are presented in its functional currency, New Taiwan Dollars (NTD). Items included in the parent-company-only financial statements are measured using that functional currency.

Transactions in foreign currencies are initially recorded by the Company at functional currency rates prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency closing rate of exchange ruling at the reporting date. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. Non-monetary items that are measured at historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions.

All exchange differences arising on the settlement of monetary items or on translating monetary items are taken to profit or loss in the period in which they arise except for the following:

(A) Exchange differences arising from foreign currency borrowings for an acquisition of a qualifying asset to the extent that they are regarded as an adjustment to interest costs are included in the borrowing costs that are eligible for capitalization.

(B) Foreign currency items within the scope of IFRS 9 Financial Instruments are accounted for based on the accounting policy for financial instrument.

(C) Exchange differences arising on a monetary item that forms part of a reporting entity's net investment in a foreign operation is recognized initially in other comprehensive income and reclassified from equity to profit or loss on disposal of the net investment.

When a gain or loss on a non-monetary item is recognized in other comprehensive income, any exchange component of that gain or loss is recognized in other comprehensive income. When a gain or loss on a non-monetary item is recognized in profit or loss, any exchange component of that gain or loss is recognized in profit or loss.

(4)Translation of financial statements in foreign currency

The assets and liabilities of foreign operations are translated into NTD at the closing rate of exchange prevailing at the reporting date and the income and expenses are translated at an average exchange rate for the period. The exchange differences arising on the translation are recognized in other comprehensive income. On disposal of a foreign operation, the cumulative amount of the exchange differences relating to that foreign operation, recognized in other comprehensive income and accumulated in the separate component of equity, is reclassified from equity to profit or loss when the gain or loss on disposal is recognized. The following are accounted for as disposals even if an interest in the foreign operation is retained by the Company: the loss of control over a foreign operation, the loss of significant influence over a foreign operation, or the loss of joint control over a foreign operation.

On the partial disposal of a subsidiary that includes a foreign operation that does not result in a loss of control, the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is re-attributed to the non-controlling interests in that foreign operation. In partial disposal of an associate or jointly controlled entity that includes a foreign operation that does not result in a loss of significant influence or joint control, only the proportionate share of the cumulative amount of the exchange differences recognized in other comprehensive income is reclassified to profit or loss.

(5)Current and non-current distinction

An asset is classified as current when:

(A)The Company expects to realize the asset, or intends to sell or consume it, in its normal operating cycle.
(B)The Company holds the asset primarily for the purpose of trading.
(C)The Company expects to realize the asset within twelve months after the reporting period.
(D)The asset is cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is classified as current when:

(A)The Company expects to settle the liability in its normal operating cycle.
(B)The Company holds the liability primarily for the purpose of trading.
(C)The liability is due to be settled within twelve months after the reporting period.
(D)The Company does not have an unconditional right to defer settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

(6)Cash and cash equivalents

Cash and cash equivalents comprises cash on hand, demand deposits and short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value (include fixed-term deposits that have matures of 3 months from the date of acquisition).

(7)Financial instruments

Financial assets and financial liabilities are recognized when the Company becomes a party to the contractual provisions of the instrument.

The Company determines the classification of its financial assets at initial recognition. In accordance with IFRS 9 and the Regulations, financial assets of the Company are classified as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income, financial assets measured at amortized cost and notes, accounts and other receivables. All financial assets are recognized initially at fair value plus, in the case of investments not at fair value through profit or loss, directly attributable costs. Financial assets carried at fair value through profit or loss are initially recognized at fair value, and transaction costs are expensed in the income statement.

(A)Financial assets: Recognition and Measurement

Purchase or sale of financial assets is recognized using trade date accounting.

The Company classified financial assets as subsequently measured at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of both:

(a)The Company’s business model for managing the financial assets and
(b)The contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

A financial asset is measured at amortized cost if both of the following conditions are met and presented as note receivables, trade receivables financial assets measured at amortized cost and other receivables etc., on balance sheet as at the reporting date:

(a)The financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and
(b)The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Such financial assets are subsequently measured at amortized cost (the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortization using the effective interest method of any difference between the initial amount and the maturity amount and adjusted for any loss allowance) and is not part of a hedging relationship. A gain or loss is recognized in profit or loss when the financial asset is derecognized, through the amortization process or in order to recognise the impairment gains or losses.

Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

(a)Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.

(b)Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Financial asset measured at fair value through other comprehensive income

A financial asset is measured at fair value through other comprehensive income if both of the following conditions are met:

(a)The financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets.

(b)The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Recognition of gain or loss on a financial asset measured at fair value through other comprehensive income are described as below:

(a)A gain or loss on a financial asset measured at fair value through other comprehensive income recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains and losses, until the financial asset is derecognized or reclassified.

(b)When the financial asset is derecognized the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment.

(c)Interest revenue is calculated by using the effective interest method. This is calculated by applying the effective interest rate to the gross carrying amount of a financial asset except for:

(I)Purchased or originated credit-impaired financial assets. For those financial assets, the Company applies the credit-adjusted effective interest rate to the amortized cost of the financial asset from initial recognition.

(II)Financial assets that are not purchased or originated credit-impaired financial assets but subsequently have become credit-impaired financial assets. For those financial assets, the Company applies the effective interest rate to the amortized cost of the financial asset in subsequent reporting periods.

Besides, for certain equity instrument within the scope of IFRS 9 that is neither held for trading nor contingent consideration recognized by an acquirer in a business combination to which IFRS 3 applies, the Company made an irrevocable elction to present the changes of the fair value in other comprehensive income at initial recognition. Amounts presented in other comprehensive income are not be subsequently transferred to profit or loss (when disposal of such equity instrument, its cumulated amount included in other components of equity is transferred directly to the retained earnings) and these investments should be presented as financial assets measured at fair value through other comprehensive income on balance sheet. Dividends on such investment are recognized in profit or loss unless the dividends clearly represents a recovery of part of the cost of investment.

Financial asset measured at fair value through profit or loss

Financial assets were classified as measured at amortized cost or measured at fair value through other comprehensive income based on aforementioned criteria. All other financial assets were measured at fair value through profit or loss and presented on the balance sheet as financial assets measured at fair value through profit or loss.

Such financial assets are measured at fair value, the gains or losses resulting from remeasurement is recognized in profit or loss which includes any dividend or interest received on such financial assets.

(B)Impairment of financial assets

The Company is recognized a loss allowance for expected credit losses on debt instrument investments measured at fair value through other comprehensive income and financial asset measured at amortized cost. The loss allowance on debt instrument investments measured at fair value through other comprehensive income is recognized in other comprehensive income and not reduce the carrying amount in the statement of financial position.

The Company measures expected credit losses of a financial instrument in a way that reflects:

(a)An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
(b)The time value of money; and
(c)Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The loss allowance is measures as follows:

(a)At an amount equal to 12-month expected credit losses: the credit risk on a financial asset has not increased significantly since initial recognition or the financial asset is determined to have low credit risk at the reporting date. In addition, the Company measures the loss allowance for a financial asset at an amount equal to lifetime expected credit losses in the previous reporting period, but determines at the current reporting date that condition is no longer met.

(b)At an amount equal to the lifetime expected credit losses: the credit risk on a financial asset has increased significantly since initial recognition or financial asset that is purchased or originated credit-impaired financial asset.

(c)For trade receivables or contract assets arising from transactions within the scope of IFRS 15, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

(d)For lease receivables arising from transactions within the scope of IFRS 16, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

At each reporting date, the Company needs to assess whether the credit risk on a financial asset has been increased significantly since initial recognition by comparing the risk of a default occurring at the reporting date and the risk of default occurring at initial recognition. Please refer to Note 12 for further details on credit risk.

(C)Derecognition of financial assets

A financial asset is derecognized when:

(a)The rights to receive cash flows from the asset have expired
(b)The Company has transferred the asset and substantially all the risks and rewards of the asset have been transferred
(c)The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the consideration received or receivable including any cumulative gain or loss that had been recognized in other comprehensive income, is recognized in profit or loss.

(D)Financial liabilities and equity

Classification between liabilities or equity

The Company classifies the instrument issued as a financial liability or an equity instrument in accordance with the substance of the contractual arrangement and the definitions of a financial liability, and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. The transaction costs of an equity transaction are accounted for as a deduction from equity (net of any related income tax benefit) to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided.

Financial liabilities

Financial liabilities within the scope of IFRS 9 Financial Instruments are classified as financial liabilities at fair value through profit or loss or financial liabilities measured at amortized cost upon initial recognition.

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated as at fair value through profit or loss.

A financial liability is classified as held for trading if:

(a)It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term;
(b)On initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking; or
(c)It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument).

If a contract contains one or more embedded derivatives, the entire hybrid (combined) contract may be designated as a financial liability at fair value through profit or loss; or a financial liability may be designated as at fair value through profit or loss when doing so results in more relevant information, because either:

(a)It eliminates or significantly reduces a measurement or recognition inconsistency; or
(b)A group of financial assets, financial liabilities or both is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the key management personnel.

Gains or losses on the subsequent measurement of liabilities at fair value through profit or loss including interest paid are recognized in profit or loss.

Financial liabilities at amortized cost

Financial liabilities measured at amortized cost include interest bearing loans and borrowings that are subsequently measured using the effective interest rate method after initial recognition. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the effective interest rate method amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or transaction costs.

Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified (whether or not attributable to the financial difficulty of the debtor), such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognized in profit or loss.

(E)Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the balance sheet if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

(8)Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

(A)In the principal market for the asset or liability, or
(B)In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

(9)Inventories

Inventories are valued at lower of cost or net realizable value item by item.

Costs incurred in bringing each inventory to its present location and condition are accounted for as follows.

Raw materials - At actual purchase cost, using weighted average method
Finished goods and work in progress - Cost of direct materials and labor and a proportion of manufacturing overheads excluding borrowing costs.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

(10)Investments accounted for using the equity method

The Company accounted for its investments in subsidiaries using equity method and made necessary adjustments in accordance with Article 21 of the Regulations. Such adjustments were made after the Company considered the different accounting treatments to account for its investments in subsidiaries in the consolidated financial statements under IFRS 10 “Consolidated Financial Statements” and the different IFRSs adopted from different reporting entity’s perspectives, and the Company recorded such adjustments by crediting or debiting to investments accounted for under the equity method, share of profit or loss of subsidiaries, associates and joint ventures and share of other comprehensive income of subsidiaries, associates and joint ventures.

The Company’s investment in its associate is accounted for using the equity method other than those that meet the criteria to be classified as held for sale. An associate is an entity over which the Company has significant influence.

Under the equity method, the investment in the associate or investment in a joint venture is carried in the balance sheet at cost and adjusted thereafter for the post-acquisition change in the Company’s share of net assets of the associate or joint venture. After the interest in the associate or joint venture is reduced to zero, additional losses are provided for, and a liability is recognized, only to the extent that the Company has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. Unrealized gains and losses resulting from transactions between the Company and the associate or joint venture are eliminated to the extent of the Company’s related interest in the associate or joint venture.

When changes in the net assets of an associate or a joint venture occur and not those that are recognized in profit or loss or other comprehensive income and do not affects the Company's percentage of ownership interests in the associate or joint venture, the Company recognizes such changes in equity based on its percentage of ownership interests. The resulting capital surplus recognized will be reclassified to profit or loss at the time of disposing the associate or joint venture on a prorata basis.

When the associate or joint venture issues new stock, and the Company's interest in an associate or a joint venture is reduced or increased as the Company fails to acquire shares newly issued in the associate or joint venture proportionately to its original ownership interest, the increase or decrease in the interest in the associate or joint venture is recognized in Additional Paid in Capital and Investment accounted for using the equity method. When the interest in the associate or joint venture is reduced, the cumulative amounts previously recognized in other comprehensive income are reclassified to profit or loss or other appropriate items. The aforementioned capital surplus recognized is reclassified to profit or loss on a pro rata basis when the Company disposes the associate or joint venture.

The financial statements of the associate or joint venture are prepared for the same reporting period as the Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Company.

The Company determines at each reporting date whether there is any objective evidence that the investment in the associate or an investment in a joint venture is impaired in accordance with IAS 28 Investments in Associates and Joint Ventures. If this is the case the Company calculates the amount of impairment as the difference between the recoverable amount of the associate or joint venture and its carrying value and recognizes the amount in the 'share of profit or loss of an associate' in the statement of comprehensive income in accordance with IAS 36 Impairment of Assets. In determining the value in use of the investment, the Company estimates:

(A)Its share of the present value of the estimated future cash flows expected to be generated by the associate or joint venture, including the cash flows from the operations of the associate and the proceeds on the ultimate disposal of the investment; or
(B)The present value of the estimated future cash flows expected to arise from dividends to be received from the investment and from its ultimate disposal.

Because goodwill that forms part of the carrying amount of an investment in an associate or an investment in a joint venture is not separately recognized, it is not tested for impairment separately by applying the requirements for impairment testing goodwill in IAS 36 Impairment of Assets.

Upon loss of significant influence over the associate or joint venture, the Company measures and recognizes any retaining investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence and the fair value of the retaining investment and proceeds from disposal is recognized in profit or loss.

(11)Property, plant and equipment

Property, plant and equipment are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Such cost includes the cost of dismantling and removing the item and restoring the site on which it is located and borrowing costs for construction in progress if the recognition criteria are met. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. When significant parts of property, plant and equipment are required to be replaced in intervals, the Company recognized such parts as individual assets with specific useful lives and depreciation, respectively. The carrying amount of those parts that are replaced is derecognized in accordance with the derecognition provisions of IAS 16 “Property, plant and equipment”. When a major inspection is performed, its cost is recognized in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in profit or loss as incurred.

Depreciation is calculated on a straight-line basis over the estimated economic lives of the following assets:

Buildings	16.5 years
Machinery and equipment	2～6 years
Transportation equipment	2～6 years
Office equipment	1～6 years
Other equipment	1～11 years

An item of property, plant and equipment or any significant part initially recognized is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset is recognized in profit or loss.

The asset's residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

(12)Leases

The Company assesses whether the contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset for a period of time, the Compamy assesses whether, throughout the period of use, has both of the following:

(A)The right to obtain substantially all of the economic benefits from use of the identified asset; and
(B)The right to direct the use of the identified asset.

For a contract that is, or contains, a lease, the Company accounts for each lease component within the contract as a lease separately from non-lease components of the contract. For a contract that contains a lease component and one or more additional lease or non-lease components, the Company allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components. The relative stand-alone price of lease and non-lease components shall be determined on the basis of the price the lessor, or a similar supplier, would charge the Company for that component, or a similar component, separately. If an observable stand-alone price is not readily available, the Company estimates the stand-alone price, maximising the use of observable information.

<u>Company as a lessee</u>

Except for leases that meet and elect short-term leases or leases of low-value assets, the Company recognizes right-of-use asset and lease liability for all leases which the Company is the lessee of those lease contracts.

At the commencement date, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses its incremental borrowing rate. At the commencement date, the lease payments included in the measurement of the lease liability comprise the following payments for the right to use the underlying asset during the lease term that are not paid at the commencement date:

(A)fixed payments (including in-substance fixed payments), less any lease incentives receivable;
(B)variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
(C)amounts expected to be payable by the lessee under residual value guarantees;
(D)the exercise price of a purchase option if the Company is reasonably certain to exercise that option; and
(E)payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease.

After the commencement date, the Company measures the lease liability on an amortised cost basis, which increases the carrying amount to reflect interest on the lease liability by using an effective interest method; and reduces the carrying amount to reflect the lease payments made.

At the commencement date, the Company measures the right-of-use asset at cost. The cost of the right-of-use asset comprises:

(A)the amount of the initial measurement of the lease liability;
(B)any lease payments made at or before the commencement date, less any lease incentives received;
(C)any initial direct costs incurred by the lessee; and
(D)an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

For subsequent measurement of the right-of-use asset, the Company measures the right-of-use asset at cost less any accumulated depreciation and any accumulated impairment losses. That is, the Company measures the right-of-use applying a cost model.

If the lease transfers ownership of the underlying asset to the Company by the end of the lease term or if the cost of the right-of-use asset reflects that the Company will exercise a purchase option, the Company depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Company depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The Company applies IAS 36 "Impairment of Assets" to determine whether the right-of-use asset is impaired and to account for any impairment loss identified.

Except for those leases that the Company accounted for as short-term leases or leases of low-value assets, the Company presents right-of-use assets and lease liabilities in the balance sheet and separately presents lease-related interest expense and depreciation charge in the statements comprehensive income.

For short-term leases or leases of low-value assets, the Company elects to recognize the lease payments associated with those leases as an expense on either a straight-line basis over the lease term or another systematic basis.

For the rent concession arising as a direct consequence of the covid-19 pandemic, the Company elected not to assess whether it is a lease modification but accounted it as a variable lease payment. The Company applied the practical expedient to all rent concessions that meet the conditions for it.

Company as a lessor

At inception of a contract, the Company classifies each of its leases as either an operating lease or a finance lease. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of an underlying asset. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership of an underlying asset. At the commencement date, the Company recognizes assets held under a finance lease in its balance sheet and present them as a receivable at an amount equal to the net investment in the lease.

For a contract that contains lease components and non-lease components, the Company allocates the consideration in the contract applying IFRS 15.

The Company recognizes lease payments from operating leases as rental income on either a straight-line basis or another systematic basis. Variable lease payments for operating leases that do not depend on an index or a rate are recognized as rental income when incurred.

(13)Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses, if any. Internally generated intangible assets, not meeting the recognition criteria, are not capitalized and expenditure is reflected in profit or loss for the year in which the expenditure is incurred.

The useful lives of intangible assets are assessed as either finite or indefinite.

Intangible assets with finite lives are amortized over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired.

The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at the end of each financial year. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the cash-generating unit level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in profit or loss when the asset is derecognized.

A summary of the policies applied to the Company's intangible assets is as follows:

	Cost of Computer Software
Useful economic life	1～5 years
Amortization method	Straight-line method during the contract term
Internally generated or acquired externally	Acquired externally

(14)Impairment of non-financial assets

The Company assesses at the end of each reporting period whether there is any indication that an asset in the scope of IAS 36 Impairment of Assets may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the asset's or cash-generating unit's recoverable amount. A previously recognized impairment loss is reversed only if there has been an increase in the estimated service potential of an asset which in turn increases the recoverable amount. However, the reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years.

A cash generating unit, or groups of cash-generating units, to which goodwill has been allocated is tested for impairment annually at the same time, irrespective of whether there is any indication of impairment. If an impairment loss is to be recognized, it is first allocated to reduce the carrying amount of any goodwill allocated to the cash generating unit (group of units), then to the other assets of the unit (group of units) pro rata on the basis of the carrying amount of each asset in the unit (group of units). Impairment losses relating to goodwill cannot be reversed in future periods for any reason.

An impairment loss of continuing operations or a reversal of such impairment loss is recognized in profit or loss.

(15)Revenue recognition

The Company's revenue arising from contracts with customers mainly includes sale of goods. The accounting policies are explained as follow:

Sale of goods

The Company manufactures and sells of its products. Sales are recognized when control of the goods is transferred to the customer and the goods are delivered to the customers. The main product of the Company is contact lenses and revenue is recognized based on the consideration stated in the contract. The Company recognized an allowance for sale return and discount shall be presented under the caption of refund liabilities within other current liabilities when partial or all considerations received might be returned or a chargeback is expected to occur.

The credit period of the Company's sale of goods is from T/T to 90 days. For most of the contracts, when the Company transfers the goods to customers and has a right to an amount of consideration that is unconditional, these contracts are recognized as trade receivables. The Company usually collects the payments shortly after transfer of goods to customers; therefore, there is no significant financing component to the contract.

(16)Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective assets. All other borrowing costs are expensed in the period they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

(17)Government grants

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. Where the grant relates to an asset, it is recognized as deferred income and released to income in equal amounts over the expected useful life of the related asset. When the grant relates to an expense item, it is recognized as income over the period necessary to match the grant on a systematic basis to the costs that it is intended to compensate.

Where the Company receives non-monetary grants, the asset and the grant are recorded gross at nominal amounts and released to the statement of comprehensive income over the expected useful life and pattern of consumption of the benefit of the underlying asset by equal annual installments. Where loans or similar assistance are provided by governments or related institutions with an interest rate below the current applicable market rate, the effect of this favorable interest is regarded as additional government grant.

(18)Post-employment benefits

All regular employees of the Company and its domestic subsidiaries are entitled to pension plans that are managed by an independently administered pension fund committee. Fund assets are deposited under the committee’s name in the specific bank account and hence, not associated with the Company and its domestic subsidiaries. Therefore, fund assets are not included in the Group’s consolidated financial statements. Pension benefits for employees of the overseas subsidiaries and the branches are provided in accordance with the respective local regulations.

For the defined contribution plan, the Company will make a monthly contribution of no less than 6% of the monthly wages of the employees subject to the plan. The Company recognizes expenses for the defined contribution plan in the period in which the contribution becomes due. Overseas subsidiaries and branches make contribution to the plan based on the requirements of local regulations and the contribution is expensed as incurred.

(19)Income tax

Income tax expense (benefit) is the aggregate amount included in the determination of profit or loss for the period in respect of current tax and deferred tax.

Current income tax

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities, using the tax rates and tax laws that have been enacted or substantively enacted by the end of the reporting period. Current income tax relating to items recognized in other comprehensive income or directly in equity is recognized in other comprehensive income or equity and not in profit or loss.

The income tax for undistributed earnings is recognized as income tax expense in the subsequent year when the distribution proposal is approved by the Shareholders' meeting.

Deferred tax

Deferred tax is provided on temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

(A)Where the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss;

(B)In respect of taxable temporary differences associated with investments in subsidiaries, and associates and interests in joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

(A)Where the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.

(B)In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will be reversed in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted at the reporting date. The measurement of deferred tax assets and liabilities reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transaction either in other comprehensive income or directly in equity. Deferred tax assets are reassessed at each reporting date and are recognized according.

Deferred tax assets and liabilities are offset, if a legally enforceable right exists to set off current income tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

5.SIGNIFICANT ACCOUNTING JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company’s parent-company-only financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of the reporting period. However, uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that would have a significant risk for a material adjustment to the carrying amounts of assets and liabilities within the next fiscal year are discussed below.

(1)Accounts receivables - estimation of impairment loss

The Company estimates the impairment loss of accounts receivables at an amount equal to lifetime expected credit losses. The credit loss is the present value of the difference between the contractual cash flows that are due under the contract (carrying amount) and the cash flows that expects to receive (evaluate forward looking information). However, as the impact from the discounting of short-term receivables is not material, the credit loss is measured by the undiscounted cash flows. Where the actual future cash flows are lower than expected, a material impairment loss may arise. Please refer to Note 6 for more details.

(2)Inventory

Estimates of net realizable value of inventories take into consideration that inventories may be damaged, become wholly or partially obsolete, or their selling prices have declined. The estimates are based on the most reliable evidence available at the time the estimates are made. Please refer to Note 6 for more details.

(3)Revenue recognition - sale returns and allowances

The Company estimates sales returns and allowance based on historical experience and other known factors at the time of sale, which reduces the operating revenue. In assessing the aforementioned sales returns and allowance, revenue is recognized to the extent it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur. Please refer to Note 6 for more details.

(4)Income tax

Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of international business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective counties in which it operates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective company's domicile.

Deferred tax assets are recognized for all carryforward of unused tax losses and unused tax credits and deductible temporary differences to the extent that it is probable that taxable profit will be available or there are sufficient taxable temporary differences against which the unused tax losses, unused tax credits or deductible temporary differences can be utilized. The amount of deferred tax assets determined to be recognized is based upon the likely timing and the level of future taxable profits and taxable temporary differences together with future tax planning strategies.

6.CONTENTS OF SIGNIFICANT ACCOUNTS

(1)Cash and cash equivalents

	As of December 31,	
	2022	2021
Cash and petty cash	$1,474	$1,435
Checkings and savings	96,697	115,937
Time deposit	1,301,511	1,329,900
Total	$1,399,682	$1,447,272

(2)Financial assets at fair value through profit or loss

	As of December 31,	
	2022	2021
Mandatorily measured at fair value through profit or loss:		
Money market fund	$570,000	$55,012
Valuation adjustment	445	12
Total	$570,445	$55,024
Current	$570,445	$55,024
Non-current	-	-
Total	$570,445	$55,024

No financial asset measured at fair value through profit or loss was pledged as collateral.

(3)Accounts receivable and accounts receivable - related parties, net

A.Accounts receivable, net

	As of December 31,	
	2022	2021
Accounts receivable, gross	$384,514	$332,336
Less: loss allowance	(7,421)	(12,955)
Net of allowances	377,093	319,381
Accounts receivable - related parties, gross	519,072	538,184
Less: loss allowance	-	-
Net of allowances	519,072	538,184
Total accounts receivable, net	$896,165	$857,565

B.Accounts receivable were not pledged.

C.Accounts receivable are generally on T/T to 90 days terms. The total carrying amount is NT$903,586 thousand and NT$870,520 thousand as of December 31, 2022 and 2021, respectively. Please refer to Note 6(16) for more details on loss allowance of accounts receivable for the years ended December 31, 2022 and 2021. Please refer to Note 12 for more details on credit risk management.

(4)Inventory

A.Details of inventory:

	As of December 31,	
	2022	2021
Raw materials	$92,656	$97,121
Supplies	7,437	4,875
Work in process	146,162	204,759
Finished goods	159,690	99,560
Total	$405,945	$406,315

B.For the years ended December 31, 2022 and 2021, the Company recognized NT$2,971,928 thousand and NT$2,685,241 thousand under the caption of costs of sale, respectively. The following items were also included in cost.

	For the year ended December 31,	
Item	2022	2021
Loss (Gain) from inventory market decline	$16,672	$(14,184)
Loss from inventory write-off obselencense	27,428	23,484
Total	$44,100	$9,300

The Company recognized gains on recovery of inventory market decline because some of the inventories previously provided with market loss or obsolescence were disposed.

C.The inventories were not pledged.

(5)Investments accounted for under the equity method

	As of December 31,				
	2022		2021		
Investee companies	Amount	Percentage of Ownership	Amount	Percentage of Ownership	Note
Investments in subsidiaries:					
Mayin Investment Co., Ltd.	$383,590	100%	$164,344	100%	None
Pegavision Japan Inc.	94,156	100%	59,801	100%	None
Pegavision Contact Lenses (Shanghai) Corporation	-	-%	108,184	100%	Note 1
Pegavision (Jiangsu) Limited	79,045	100%	80,387	100%	None
Unrealized profit	(100,092)		(130,906)		
Total	$456,699		$281,810		

Note 1: To improve the synergy of the Group, the board of directors decided to transfer the equity of Pegavision Contact Lenses (Shanghai) Corporation from the Company to BeautyTech Platform Corporation.

A.Investments in subsidiaries were present in the parent-company-only financial statements under the caption of investments accounted for under equity method or credit for investment accounted for the equity method. Valuation adjustment is made if deemed necessary

B.The Company’s investments accounted for under the equity method were not pledged.

(6)Property, plant and equipment

	Land	Buildings	Machinery and equipment	Transportation equipment	Computer equipment	Other equipment	Construction in progress and equipment awaiting inspection (including prepayment for equipment)	Total
Cost:								
As of 1/1/2022	$1,317,564	$69,345	$4,755,399	$1,505	$76,498	$860,422	$766,275	$7,847,008

As of 12/31/2021	$-	$27,309	$2,227,640	$876	$67,757	$541,495	$-	$2,865,077
Net carrying amount:								
As of 12/31/2022	$1,317,564	$29,324	$2,010,392	$859	$5,016	$259,414	$1,102,212	$4,724,781
As of 12/31/2021	$1,317,564	$42,036	$2,527,759	$629	$8,741	$318,927	$766,275	$4,981,931

A.Details of property, plant & equipment and prepayment for equipment is as follows:

	As of December 31,	
	2022	2021
Property, plant and equipment	$4,643,032	$4,905,796
Prepayment for equipment	81,749	76,135
Total	$4,724,781	$4,981,931

B.For the years ended December 31, 2022 and 2021, NT$37,686 thousand and NT$24,015 thousand impairment loss represented the write down of certain property, plant and equipment to the recoverable amount. This has been recognized in the statement of comprehensive income. The recoverable value is measured at usage values by the individual units.

C.Please refer to Note 8 for more details on property, plant and equipment under pledge.

(7)Intangible assets

	Computer software
Cost:	
As of January 1, 2022	$32,077
Additions – acquired separately	-
Transfer	18,287
Derecognized upon retirement	(2,909)
As of December 31, 2022	$47,455
As of January 1, 2021	$22,776
Additions – acquired separately	-
Transfer	9,301
Derecognized upon retirement	-
As of December 31, 2021	$32,077
Amortization and Impairment:	
As of January 1, 2022	$20,527
Amortization	8,288
Derecognized upon retirement	(2,909)
As of December 31, 2022	$25,906
As of January 1, 2021	$16,480
Amortization	4,047
Derecognized upon retirement	-
As of December 31, 2021	$20,527
Carrying amount, net:	
As of December 31, 2022	$21,549
As of December 31, 2021	$11,550

Amounts of amortization recognized for intangible assets are as follows:

	For the year ended December 31,	
	2022	2021
Manufacturing expense	$350	$245
Selling expense	261	532
Administrative expense	6,486	2,396
Research and development expense	1,191	874
Total	$8,288	$4,047

(8)Other non-current assets

	As of December 31,	
	2022	2021
Refundable deposits	$46,221	$46,763
Prepayment for equipment	81,749	76,135
Total	$127,970	$122,898

Please refer to Note 8 for more details on Refundable deposits under pledge.

(9)Short-term borrowings

	As of December 31,	
	2022	2021
Unsecured bank loans	$284,467	$444,866
Interest Rate (%)	3.04%~5.63%	0.58%~0.80%

The Company's unused short-term lines of credits amounts to NT$938,762 thousand and NT$731,964 thousand, as at December 31, 2022 and 2021, respectively.

(10)Other payable

	As of December 31,	
	2022	2021
Accrued expenses	$1,111,300	$1,027,168
Accrued interest payable	478	278
Payable to equipment suppliers	118,972	613,316
Total	$1,230,750	$1,640,762

(11)Other current liabilities

A.Details of other current liabilities

	As of December 31,	
	2022	2021
Other current liabilities	$55,470	$24,161
Refund liability	166,501	99,177
Deferred government grants income	447	281
Current portion of long-term loans payable	4,457	-
Total	$226,875	$123,619

B.The changes in the Company's balances of deferred government grants income are as follows:

	For the year ended December 31,	
	2022	2021
Beginning balance	$1,065	$299
Received during the period	-	984
Released to the statement of comprehensive income	(402)	(218)
Ending Balance	$663	$1,065

Note 4: A term is defined as every 1 months starting from the initial draw-down date. Grace period is 2 years (24 terms). The rest is repayable in installments of equal amount for 36 terms.

B.The interest rate intervals for long-term borrowings are as follows:

	As of December 31,	
	2022	2021
The interest rate intervals(%)	1.025%~6.43%	0.90%~1.08%

The Company obtained from the Ministry of Economy a low-interest government loan amounting NT$60,000 thousands with a term of 5~10 years and annual interest rates of 0.50% and monthly interest payment on the 15th of each month. The loan was recorded under the caption of other liabilities-deferred government grants income. The Company shall recognize the government grant income when it is reasonably assured that the Company satisfy all the terms of the government grant agreement.

C.Please refer to Note 8 for more details regarding assets pleded for secured bank borrowings.

(13)Post-employment benefits

Defined contribution plan

The Company adopted a defined contribution plan in accordance with the Labor Pension Act of the R.O.C. Under the Labor Pension Act, the Company will make monthly contributions of no less than 6% of the employees' monthly wages to the employees' individual pension accounts. The Company has made monthly contributions of 6% of each individual employee's salaries or wages to employees' pension accounts.

Expenses under the defined contribution plan for the years ended December 31, 2022 and 2021 are NT$42,395 thousand and NT$42,302 thousand, respectively.

Pension for the years ended December 31, 2022 and 2021 were NT$1 thousand and NT$9 thousand, respectively.

(14)Equity

A.Common stock

As of December 31, 2022 and 2021, the Company’s authorized capital were NT$1,000,000 thousand and NT$800,000 thousand , respectively. And paid-in capital were NT$700,000 thousand, each share at par value of NT$10, divided into 70,000 thousand shares. Each share has one voting right and a right to receive dividends.

As of May 24, 2022, the Company’s Annual Shareholder’s Meeting has approved the change of the authorized share capital amounted to NT$1,000,000 thousand. As of June 13, 2022, the change registration was completed, and the change in the authorized share capital was approved and recorded by the competent authority

B.Capital surplus

	As of December 31,	
	2022	2021
Additional paid-in capital	$1,804,928	$1,804,928
Changes in equity of investment accounted for using equity method	4,609	3
Share-based payment transaction	804	-
Total	$1,810,341	$1,804,931

According to Taiwan Company Act, the capital surplus shall not be used except for making good the deficit of the Company. When a company incurs no loss, it may distribute the capital surplus related to the income derived from the issuance of new shares at a premium or income from endowments received by the company. The distribution could be made in cash or in the form of dividend shares to its shareholders in proportion to the number of shares being held by each of them. Capital surplus related to long-term equity investments cannot be used for any purpose.

C.Appropriation of earnings and dividend policies

a.Distribution of earnings

According to the Company's Articles of Incorporation, current year's earnings, if any, shall be distributed in the following order:

I. Payment of all taxes and dues;
II.Offset prior years' operation losses;
III.Set aside 10% of the remaining amount as legal reserve. There is no requirement to further make such reserve when legal reserve reaches the capital amount.
IV.Set aside or reverse special reserve in accordance with law and regulations; and
V.The distribution of the remaining portion, if any, will be recommended by the Board of Directors and resolved in the shareholders' meeting.

If the above-mentioned dividends are distributed to shareholders in the form of cash, the Board of Directors have been authorized to approve by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, and report to the shareholder's meeting.

b.Dividend policy

The Company is in an industry with versatile environment. For long-term finance planning requirements and to meet the shareholders' demand for cash, the Company's dividend policy aims for steadiness and balancing. Dividends to be distributed in cash for each year shall not be less than 10% of the total dividends paid.

c.Legal reserve

According to the Company Act, legal reserve shall be set aside until such amount equal total authorized capital. Legal reserve can be used to offset deficits. If the Company does not incur any loss, the portion of legal reserve exceeding 25% of the paid-in capital may be distributed to shareholders by issuing new shares or by cash in proportion to the number of shares held by each shareholder.

d. Special reserve

When the Company distributing distributable earnings, it shall set aside to special reserve, an amount equal to “other net deductions from shareholders” equity for the current fiscal year, provided that if the Company has already set aside special reserve according to the requirements for the adoption of IFRS, it shall set aside supplemental special reserve based on the difference between the amount already set aside and other net deductions from shareholders’ equity. For any subsequent reversal of other net deductions from shareholders’ equity, the amount reversed may be distributed from the special reserve.

The FSC issued Order No. Financial-Supervisory-Securities-Corporate-1090150022 on March 31, 2021, which sets out the following provisions for compliance:

On a public company's first-time adoption of the IFRS, for any unrealized revaluation gains and cumulative translation adjustments (gains) recorded to shareholders’ equity that the company elects to transfer to retained earnings by application of the exemption under IFRS 1, the company shall set aside special reserve. For any subsequent use, disposal or reclassification of related assets, the company can reverse the special reserve by proportion and transfer to retained earnings.

The Company did not incur any special reserve upon the first-time adoption of T-IFRS.

e. The appropriations of earnings for the Years 2022 and 2021 were approved through the Board of Directors’ meeting and shareholders’ meeting held on February 13th ,2023 and May 24th, 2022, respectively. The details of the distributions are as follows.

	Appropriation of earnings		Dividend per share (in NT$)	
	2022	2021	2022	2021
Legal reserve	$152,754	$124,857		
Special reserve	(3,433)	8,224		
Cash dividend	700,000	595,000	$10	$8.5

Please refer to Note 6(18) for details on employees’ compensation and remuneration to directors and supervisors.

(15)Operating revenue

	For the year ended December 31,	
	2022	2021
Revenue from customer contracts		
Sales of goods	$5,603,362	$5,162,463

Analysis of revenue from contracts with customers are as follows:

A.Disaggregation of revenue

	For the year ended December 31,	
	2022	2021
	Single department	Single department
Sales of goods	$5,603,362	$5,162,463
The timing for revenue recognition:		
At a point in time	$5,603,362	$5,162,463

B.Contract balances

a.Contract liabilities – current

As of	2022.12.31	2021.12.31	2021.01.01
Sales of goods	$10,625	$24,000	$24,374
Customer loyalty programmes	-	-	15,261
Total	$10,625	$24,000	$39,635

The changes in the Company's balances of contract liabilities for the year ended 31 December 2022 are as follows:

	Sales of goods
The opening balance transferred to revenue	$(23,324)
Increase in receipts in advance during the period (excluding the amount incurred and transferred to revenue during the period)	9,949

The changes in the Company's balances of contract liabilities for the year ended December 31, 2021 are as follows:

	Sales of goods	Customer loyalty programmes
The opening balance transferred to revenue	$(24,292)	$(15,261)
Increase in receipts in advance during the period (excluding the amount incurred and transferred to revenue during the period)	23,918	-

(16)Expected credit gains (losses)

	For the year ended December 31,	
	2022	2021
Operating expenses - Expected credit gains (losses)		
Accounts receivable	$5,534	$(7,873)

A.The Company considers the grouping of trade receivables by counterparties' credit rating, by geographical region and by industry sector and its loss allowance is measured by using a provision matrix, details are as follow:

December 31, 2022

		Past due		
	Not past due	<=60 days	Separate assessment	Total
Gross carrying amount	$887,419	$14,238	$1,929	$903,586
Loss rate	0.6%	1%	100%	
Lifetime expected credit losses	(5,350)	(142)	(1,929)	(7,421)
Carrying amount of accounts receivable	$882,069	$14,096	$-	$896,165

December 31, 2021

	Not past due	Past due <=60 days	Separate assessment	Total
Gross carrying amount	$863,040	$-	$7,480	$870,520
Loss rate	0.63%	0%	100%	
Lifetime expected credit losses	(5,475)	-	(7,480)	(12,955)
Carrying amount of accounts receivable	$857,565	$-	$-	$857,565

B.The movement in the provision for impairment of accounts receivable for the years 2022 and 2021 are as follows:

	Accounts receivable
As of January 1, 2022	$12,955
Addition (reversal)	(5,534)
As of December 31, 2022	$7,421
As of January 1, 2021	$5,082
Addition (reversal)	7,873
As of December 31, 2021	$12,955

(17)Leases

A.Company as a lessee

The Company leases various properties, including real estate such as buildings, machinery and equipment and transportation equipment. The lease terms range from 1 to 10 years. The Company is not allowed to lend, sublease, or sell without obtaining the consent from the lessors.

The effect of leases on the Company's financial position, financial performance and cash flows are as follow:

a.Amounts recognized in the balance sheet

I.Right-of-use assets

	Land	Buildings	Machinery and equipment	Transportation equipment	Total
Cost:					
As of 1/1/2022	$-	$-	$-	$-	$-
Addition	-	330,605	-	-	330,605
Disposals	-	-	-	-	-
Transfer	-	-	-	-	-
As of 12/31/2022	$-	$330,605	$-	$-	$330,605
As of 1/1/2021	$-	$145,884	$17,793	$2,490	$166,167
Addition	-	26	-	-	26
Disposals	-	(145,910)	(17,793)	(2,490)	(166,193)
Transfer	-	-	-	-	-
As of 12/31/2021	$-	$-	$-	$-	$-
Depreciation and impairment:					
As of 1/1/2022	$-	$-	$-	$-	$-

Salaries	$903,651	$521,158	$1,424,809	$883,932	$535,329	$1,419,261
Labor and health insurance	82,831	25,444	108,275	76,227	31,918	108,145
Pension	28,837	13,559	42,396	26,094	16,217	42,311
Directors' remuneration	-	23,338	23,338	-	19,381	19,381
Other employee benefits expense	44,886	34,707	79,593	39,216	33,104	72,320
Depreciation	839,106	21,321	860,427	580,225	23,001	603,226
Amortization	350	7,938	8,288	245	3,802	4,047

Note:

1.The average headcounts of the Company amounted to 1,775 and 1,867, respectively, as of December 31, 2022 and 2021. Among the Company's directors, there were 7 and 7, respectionely, who were not the employees, as of December 31, 2022 and 2021.

2.Companies who have been listed on Taiwan Stock Exchange or Taiwan Over-The Counter Securities Exchange should disclose the following information:

(1)Average employee benefits of 2022 and 2021 are NT$936 thousand and NT$883 thousand respectively.

(2)Average salaries of 2022 and 2021 are NT$806 thousand and NT$763 thousand respectively.

(3)Changes in average salaries are 6%.

(4)In accordance with the regulations, the Company has established an audit committee to replace the supervisor, so the supervisor's remuneration has not been recognized.

(5)The salary and remuneration policy of the Company:

Board of Directors and managers' salaries are referred to the industry standards, and the bonuses are allocated according to their performance, risk taking and level of contribution, etc. Employees' salaries are based on their academic background, professional knowledge, years of experience, and their KPI. Employees' annual salaries are also adjusted based on Company's condition to motivate and retain outstanding employees.

According to the Article of Incorporation, not lower than 10% of profit of the current year is distributable as employees' compensation and no higher than 1% of profit of the current year is distributable as remuneration to directors and supervisors. However, the Company's accumulated losses shall have been covered.

The Company may, by a resolution adopted by a majority vote at a meeting of Board of Directors attended by two-thirds of the total number of directors, have the profit distributable as employees' compensation in the form of shares or in cash; and in addition thereto a report of such distribution is submitted to the shareholders' meeting. Information on the Board of Directors' resolution regarding the employees' compensation and remuneration to directors and supervisors can be obtained from the "Market Observation Post System" on the website of the TWSE.

Based on profit, the Company estimated the amounts of the employees' compensation and remuneration to directors for the year ended December 31, 2022 amounted to NT$231,589 thousand and NT$20,138 thousand, respectively. The employees' compensation and remuneration to directors for the year ended December 31, 2021 amounted to NT$186,084 thousand and NT$16,181 thousand, respectively, recognized as employee benefits.

The Company's Board has determined the employees' compensation and directors' renumeration, all in cash, to be NT$231,589 thousand and NT$20,136 thousand, respectively. The NT$2 thousand differences between the estimated amount and the actual distribution of the employee bonuses and remuneration to directors for the year ended December 31, 2022, were recognized as gain or loss in the next year.

The Company's Board has determined the employees' compensation and directors' renumeration, all in cash, to be NT$186,084 thousand and NT$16,179 thousand,respectively. The NT$2 thousand differences between the estimated amount and the actual distribution of the employee bonuses and remuneration to directors for the year ended December 31, 2021, were recognized as gain or loss in the next year.

(19)Non-operating incomes and expenses

A.Interest income

	For the year ended December 31,	
	2022	2021
Interest income		
Deposit interest	$4,584	$1,762
Financial assets measured at amortized cost	1,774	1,667
Total	$6,358	$3,429

Share of profits or loss of subsidiaries, associates and joint ventures accounted for under equity method	(25,661)	(8,621)	-	(34,282)
Deferred tax income/ (expense)		$(5,268)	$-	
Net deferred tax assets/(liabilities)	$(12,957)			$(18,225)
Reflected in balance sheet as follows:				
Deferred tax assets	$12,704			$16,057
Deferred tax liabilities	$25,661			$34,282

For the year ended December 31, 2021

	Beginning balance as of January 1, 2021	Deferred tax income (expense) recognized in profit or loss	Deferred tax income (expense) recognized in other comprehensive income	Ending balance as of December 31, 2021
Temporary differences				
Unrealiized loss on inventory valuation	$14,035	$(2,478)	$-	$11,557
Unrealized exchange loss (gain)	(5,039)	6,186	-	1,147
Share of profits or loss of subsidiaries, associates and joint ventures accounted for under equity method	(18,327)	(7,334)	-	(25,661)
Deferred tax income/ (expense)		$(3,626)	$-	
Net deferred tax assets/(liabilities)	$(9,331)			$(12,957)

Reflected in balance sheet as follows:		
Deferred tax assets	$14,035	$12,704
Deferred tax liabilities	$23,366	$25,661

D.Unrecognized deferred tax assets

As of December 31, 2022 and 2021, deferred tax assets that have not been recognized as they may not be used to offset future taxable income amounted to NT$129,540 thousand and NT$104,056 thousand, respectively.

E.The assessment of income tax returns

As of December 31, 2022, the assessment of the income tax returns of the Company have been approved up to the year of 2020.

(22)Earnings per share

Basic earnings per share is calculated by dividing net profit for the year attributable to the common shareholders of the parent entity by the weighted average number of common stocks outstanding during the year.

Diluted earnings per share are calculated by dividing the net profit attributable to ordinary equity holders of the parent entity (after adjusting any influences) by the weighted average number of common stocks outstanding during the year plus the weighted average number of common stocks that would be issued on conversion of all the dilutive potential common stocks into common stocks.

A.Basic earnings per share

	For the year ended December 31,	
	2022	2021
Net income available to common shareholders of the parent	$1,542,135	$1,248,574
Weighted average number of common stocks outstanding (in thousand shares)	70,000	70,000
Basic earnings per share (in NT$)	$22.03	$17.84

B.Diluted earnings per share

	For the year ended December 31,	
	2022	2021
Net income available to common shareholders of the parent	$1,542,135	$1,248,574
Net income available to common shareholders of the parent after dilution	$1,542,135	$1,248,574
Weighted average number of common stocks outstanding (in thousand shares)	70,000	70,000
Effect of dilution:		
Employee bonus (compensation) - stock (in thousand shares)	602	470
Weighted average number of common stocks outstanding after dilution (in thousand shares)	70,602	70,470
Diluted earnings per share (in NT$)	$21.84	$17.72

No other transactions that would significantly change the outstanding common stocks or potential common stocks incurred during the period subsequent to reporting date and up to the approval date of financial statements.

7.RELATED PARTY TRANSACTIONS

(1)Deal with related parties as of the end of the reporting period

Related parties and Relationship

Related parties	Relationship
Pegatron Corporation	Ultimate parent company

Lease liabilities	265,533	-
Total	$2,119,175	$2,429,420

(2)Financial risk management objectives and policies

The Company’s principal financial risk management objective is to manage the market risk, credit risk and liquidity risk related to its operating activates. The Company identifies, measures, and manages the aforementioned risks based on its policy and risk appetite.

The Company has established appropriate policies, procedures and internal controls for financial risk management. Before entering into significant transactions, due approval process by the Board of Directors and Audit Committee must be carried out based on related protocols and internal control procedures. The Company complies with its financial risk.

(3)Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices. Market prices comprises currency risk and interest rate risk.

In practice, it is rarely the case that a single risk variable will change independently from other risk variables. There is usually interdependencies between risk variables. However, the sensitivity analysis disclosed below does not take into account the interdependencies between risk variables.

Foreign currency risk

The Company's exposure to foreign currency risk relates primarily to the Company's operating activities (when revenue or expense are denominated in a different currency from the Company's functional currency) and the Company's net investments in foreign subsidiaries.

The Company has certain foreign currency receivables to be denominated in the same foreign currency as certain foreign currency payables, therefore natural hedge is achieved. Therefore, hedge accounting is not adopted.

The foreign currency sensitivity analysis of the possible change in foreign exchange rates on the Company's profit/loss and equity is performed on significant monetary items denominated in foreign currencies as of the reporting period-end. The Company's foreign currency risk is mainly related to volatility in the exchange rates of US dollars and CNY dollars. The information of the sensitivity analyses is as follows:

When NTD appreciates/depreciates against USD by 1%, the net income (loss) for the years ended 31 December 2022 and 2021 would decrease/increase by NT$4,808 thousand and NT$1,267 thousand, respectively.

When NTD appreciates/depreciates against CNY by 1%, the net income (loss) for the years ended 31 December 2022 and 2021 would decrease/increase by NT$707usand and NT$1,109 thousand, respectively.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to interest rate risk relates primarily to the Company's investments with variable interest rates and bank borrowings with fixed interest rates and variable interest rates, which are all categorized as bank borrowings and receivables.

The interest rate sensitivity analysis is performed on items exposed to interest rate risk as of the end of the reporting period and presumed to be held for one accounting year, including investments and bank borrowing with variable interest rates. If interest rate increases/decreases by 0.1%, the net income (loss) for the years ended December 31, 2022 and 2021 would increase/decrease by NT$19 housand and NT$60 thousand, respectively.

(4)Credit risk management

Credit risk is the risk that counterparty will not meet its obligations under a contract and result in a financial loss. The Company is exposed to credit risk from operating activities (primarily for accounts and notes receivable) and from its financing activities, including bank deposits and other financial instruments.

Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to credit risk management. Credit risk of all customers are assessed based on a comprehensive review of the customers' financial status, credit ratings from credit institutions, past transactions, current economic conditions and the Company's internal credit ratings. The Company also employs some credit enhancement instruments (e.g. prepayment or insurance) to reduce certain customers' credit risk.

As of December 31, 2022 and 2021, receivables from the top ten customers were accounted for 96.69% and 90.25% of the Company's total accounts receivable, respectively. The concentration of credit risk is relatively not significant for the remaining receivables.

Credit risk from balances with banks, fixed-income securities and other financial instruments is managed by the Company's finance division in accordance with the Company's policy. The counterparties that the Company transacts with are determined by internal control procedures. They are banks with fine credit ratings and financial institutions, corporate and government agencies with investment-grade credit ratings. Thus, there is no significant default risk. Consequently, there is no significant credit risk for these counter parties.

The Company adopted IFRS 9 to assess the expected credit losses. Except for the loss allowance of trade receivables is measured at lifetime expected credit losses, the remaining debt instrument investments which are not measured at fair value through profit or loss, low credit risk for these investments is a prerequisite upon acquisition and by using their credit risk as a basis for the distinction of categories.

Financial assets are written off when there is no realistic prospect of future recovery (the issuer or the debtor is in financial difficulties or bankruptcy).

(5)Liquidity risk management

The Company maintains financial flexibility through the use of cash and cash equivalents, highly-liquid marketable securities, bank loans, etc. The table below summarizes the maturity profile of the Company's financial liabilities based on the contractual undiscounted payments and contractual maturity. The payment amount includes the contractual interest. The undiscounted interest payment relating to borrowings with variable interest rates is extrapolated based on the estimated yield curve as of the end of the reporting period.

Non-derivative financial instruments

	Less than 1 year	1 to 2 years	2 to 3 years	3 to 4 years	4 to 5 years	>5 years	Total

(7)Fair values of financial instruments

A.The evaluation methods and assumptions applied in determining the fair value

Fair value is the price that would be received to sell a financial asset or paid to transfer a financial liability in an orderly transaction between willing market participants (not under coercion or liquidation). The following methods and assumptions are used by the Company in estimating the fair values of financial assets and liabilities:

a.The carrying amount of cash and cash equivalents, receivables, payables and other current liabilities approximate their fair value due to their short maturities.

b.For financial assets and liabilities traded in an active market with standard terms and conditions, their fair value is determined based on market quotation price (including listed equity securities and bonds).

c.Fair value of equity instruments without market quotations, bank borrowing and other non-current liabilities are determined based on the counterparty prices or valuation method (including private placement of listed equity securities, unquoted public company and private company equity securities) are estimated using the market method valuation techniques based on parameters such as prices based on market transactions of equity instruments of identical or comparable entities and other relevant information (for example, inputs such as discount for lack of marketability, P/E ratio of similar entities and Price-Book ratio of similar entities).

B.Fair value of financial instruments measured at amortized cost

The carrying amount of the Company's financial assets and liabilities measure at amortized cost approximates their fair value.

C.Fair value measurement hierarchy for financial instruments

Please refer to Note 12(8) for fair value measurement hierarchy for financial instruments of the Company.

(8)Fair value measurement hierarchy

A.Fair value measurement hierarchy

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, based on the lowest level input that is significant to the fair value measurement as a whole. Level 1, 2 and 3 inputs are described as follows:

Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities that the entity can access at the measurement date

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly

Level 3 – Unobservable inputs for the asset or liability

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization at the end of each reporting period.

B.Fair value measurement hierarchy of the Company's assets and liabilities

The Company does not have assets that are measured at fair value on a non-recurring basis. Fair value measurement hierarchy of the Company's assets and liabilities measured at fair value on a recurring basis is as follows.

As of December 31, 2022

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss				
Money market fund	$570,445	$-	$-	$570,445
Financial liabilities:				
None				

As of December 31, 2021

	Level 1	Level 2	Level 3	Total
Financial assets:				
Financial assets at fair value through profit or loss				
Money market fund	$55,024	$-	$-	$55,024
Financial liabilities:				
None				

Transfers between Level 1 and Level 2 during the period

For the year ended December 31, 2022 and 2021, there were no transfers between Level 1 and Level 2 fair value measurement.

(9)Significant financial assets and liabilities denominated in foreign currencies

Information regarding the significant financial assets and liabilities denominated in foreign currencies was listed below. (In Thousands)

	As of December 31,					
	2022			2021

(10)Capital management

The primary objective of the Company’s capital management is to ensure that it maintains a strong credit rating and healthy capital ratios in order to support its business and maximize shareholder value. The Company manages and adjusts its capital structure in light of changes in economic conditions. To maintain or adjust the capital structure, the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

13.ADDITIONAL DISCLOSURES
